SANTA ANA, CALIFORNIA, WEDNESDAY EVENING, MARCH 7, 1917.

50 CENTS PER MONTH

WILSON SCORES SENATE CLOTURE VICTORY

GREATEST NEEDS OF SANTA ANA ARE TOLD BY SPEAKERS

Tourist Hotel, Y. M. C. A. Building, More Civic Pride and Cooperation Urged

PLACENTIA CANNERY MAN PROMISES PLANT

Stimulating Booster Talks Are Given At C. of C. Luncheon Today

What is Santa Ana's greatest need? A tourist hotel, Y. M. C. A. building, more civic pride, more co-operation. These are the four most important things needed to promote a more rapid growth in the city of Santa Ana, in the opinion of the speakers at the Chamber of Commerce luncheon at James' today.

Many other minor needs were suggested, but these four stood out most prominently in the short talks of those participating in the program.

The hotel—the kind needed—the city is absolutely without, civic pride and co-operation is evidenced to some extent but not to the degree of solidarity required to bring the city to the high point of advancement its natural resources and advantages entitle it to.

Clyde Horton was the chairman of the luncheon today, and Clyde is some master of ceremonies. With appropriate remarks introducing the speakers and comments at the conclusion of the talks, he added to the interest of the discussion on Santa Ana's greatest needs.

Compliments City
J. L. Stevenson, manager of the Placentia cannery, was introduced by J. R. Paine, Jr., as a visitor at the luncheon. Stevenson complimented the city on the bunch of live business men it has and said he could see nothing that the city needed.

"You're certainly a live bunch," said Stevenson. "You don't need anything—you've got it. I want tomatoes. Before the high cost of living I thought it would be easy to secure acreage in this vicinity for the growing of tomatoes for our cannery."

I find that your farmers are busy making money, and want to make more—that they are raising beans for the allies. If I were permitted to make a suggestion as to the needs of the city from my personal interests, I would say that you need the vacant lots of the city planted to tomatoes. Why not supplant the weeds on the vacant lots with tomato vines? I want 2000 tons of tomatoes from Santa Ana. Garden tomatoes are worth \$2 a ton more than those grown in Arizona. The price we offer unheard of, \$10 per ton for acreage and \$12 per ton for garden tomatoes. The latter are the best, because they are given more attention in the way of cultivation, irrigation, etc., the small lot being the easier to take care of.

Promises Cannery

"When I was here a few weeks ago, I told some of you people that if you would get me 100 acres of tomatoes this year, I would start a cannery here next year. I still want that 100 acres."

The chairman suggested that efforts be made at once to get the acreage signed up, so that Stevenson would be given opportunity to carry out his promise.

Taking up the topic for the luncheon, Horton called on J. P. Baumgartner, editor of the Register, to open the discussion.

"The greatest material need is a tourist hotel," said Baumgartner. "We all know this only too well. And in this connection, I wish to be understood as not speaking in disparaging terms of the splendid commercial hotel we now have. The need for a tourist hotel is growing. The city is growing. The auto travel through this city is becoming tremendous. There is a continuous string of automobiles day and night on Main street. Some are local machines, it is true, but a large number are driven by tourists. With a modern, attractive hotel, hundreds of tourists would be induced to stop over in the city for a good patronage for such a hostelry, and commercial men would make the city a stopping point if they could get the kind of accommodations that would appeal to them. We will have the hotel some day. It should not be built downtown, with store rooms on the ground floor."

Y. M. C. A. Building
"The second greatest need, in my opinion is a Y. M. C. A. building. No city the size of Santa Ana that I can call to mind is without such a building. It would be of great value in the way of advertising Santa Ana."

C. S. Kendall, former president of the Chamber of Commerce—The development of a greater spirit of co-operation.

[CONTINUED ON PAGE 3]

TWO HELD WITHOUT BAIL ON EXPLOSION CONSPIRACY CHARGE

HOBOKEN, Mar. 7.—Fritz Kolb and Hans Schwartz, alleged German plotters, are being held without bail, after their arraignment today, charged with "conspiracy and unlawful possession of explosives with intent to destroy property."

Both admitted having bombs when they were arrested.

GERMAN PLOT EVIDENCE IN CUBA BARED

HAVANA, Mar. 7.—Direct evidence of Germany's aid to the Cuban rebel cause was declared to have been uncovered today in examination of papers found after the arrest of Dr. Luis Octavio Divino, a well known labor leader, and two members of the Cuban Congress. According to police officials, a proclamation signed by revolutionary leaders, a copy of which was discovered in Divino's home, contained the statement that "Germany has promised to aid."

Since publication in the United States of Zimmerman's letter and circumstantial stories carried in the American newspapers of the activities of various German propaganda organizations, Cuban government officials have been active in searching out possible German machinations here.

S. F. PLOT BASE, IS DISCOVERED TODAY

WASHINGTON, Mar. 7.—San Francisco was one of the bases of active operations in Germany's India uprising plot, it was officially learned today. An Indian there, who has now quit the country, was engaged in spreading uprising propaganda, and did an enormous amount of work while the New York men now under arrest were furthering actual developments of the plot.

EAST AND WEST MEET IN L. A. NET TOURNAMENT

LOS ANGELES, Mar. 7.—The Tennis tournament between the East and West will open today. The tournament includes four singles matches and three double matches. The tournament will end on March 10.

Last year the Eastern tennis team captured every match with the exception of one. The Western squad is much stronger this year, however, and it is expected that they will make a much better showing.

Interest centers around the match between Molla Bjurstedt, woman tennis champion, and Mrs. May Sutton Bundy, former champion.

NEW TONG OUTBREAK FEAR OF S. F. POLICE

SAN FRANCISCO, Mar. 7.—With eight Chinese dead in the tong war which broke out in half a dozen California cities Monday, an ominous quiet brooded over the various Chinatowns today. For thirty-six hours no shooting had been reported in San Francisco, Oakland, San Jose or Stockton, where Chinese tongmen were shot in the streets Monday. But the police were not deceived by this condition and expressed the belief that it is merely the lull before a new storm which they fear will burst at any time.

DESERTED TRENCHES FOUND BIRDS' REFUGE

PARIS, Mar. 7.—Thirty-five different species of birds were found making their nests in deserted trenches on the west front by Dr. Arthur White, an American naturalist.

SEAL BATTLE DUE

SACRAMENTO, Mar. 7.—The Seals will meet a picked Sacramento team tomorrow.

BRITISH POISON PLOT ACCUSED GO TO TRIAL

LONDON, Mar. 7.—Subtle poisons, an infinitesimal drop of which would cause death if introduced in a wound, were revealed as the tools by which the four plotters against the life of Premier Lloyd-George and Minister Arthur Henderson sought to accomplish their end, in testimony offered at the Old Bailey trial of the four today.

The crown called two expert toxicologists and pathologists. Both delivered a bewildering analysis of the effect of various poisons found by Inspector Herbert Booth of Scotland Yard in the possession of Mrs. Alice Wheeldon, Miss Hetty Wheeldon and Mr. and Mrs. Alfred Mason, the quartet on trial for the "poison plot."

SONORA MEXICO BARS AMERICAN CURRENCY

DOUGLAS, Ariz., Mar. 7.—Mining men here today say that Sonora, Mexico, refuses to take American currency, fearing that probable war with Germany will cause it to depreciate. The Agua Prieta customs house also refused to take currency and demanded coin, the mining men said.

NERVOUS MAN PREFERS TRENCHES TO PRISON

MANCHESTER, Mar. 7.—Pleading for exemption on the ground that his nerves were bad, Frank Mauler was given his choice between an open air cure in the trenches or the jail yard. He enlisted.

OAKS PRUNED DOWN

BOYES SPRINGS, Cal., Mar. 7.—Del Howard tried out his pruning knife for the first time this year when he dismissed several recruits who have been training with the Oaks.

3 DAYS' U-BOAT TOLL 204,000 TONS, CLAIM OF BERLIN

Daily Sinkings Will Not Be Made Public, Decision Of Italy

BERLIN, via Sayville wireless, Mar. 7.—"From March 1 to 3 reports of submarines have arrived indicating that ships totalling 204,000 gross tons have been sunk," the official press bureau announced today.

ITALY BARS BARRING DAILY SINKINGS

ROME, Mar. 7.—Hereafter Italy will adopt the plan of her allies and not make public daily statements of sinkings of vessels. At the end of each week the government will announce totals of arrivals, departures and losses.

AUSTRIAN NOTE CALLED "IMPUDENT FRAUD"

ROME, Mar. 7.—An "impudent fraud" was the characterization of Austria's note to the United States voiced in the newspaper Idea Nazionale today. Practically the same attitude was shown by all of the Italian newspaper comment.

BRITISH ALMOST WITHIN RANGE OF BAGDAD

LONDON, Mar. 7.—British troops have approached almost within range of Bagdad.

Official announcement from the Mesopotamia expeditionary force today declared that on Monday British cavalry engaged a Turkish rear guard at Laji, nine miles southeast of Ctesiphon.

FRENCH SEIZE MANY TEUTON PRISONERS

PARIS, Mar. 7.—French raids on German territory today gained many German prisoners, today's official statement declared, while German attempts to penetrate to French trenches were checked with heavy losses. "French forces raided German trenches and took prisoners between the Oise and the Aisne," the statement said.

15 AEROS SHOT DOWN BY GERMANS

BERLIN, Mar. 7.—Fifteen enemy aeroplanes were brought down in the western front, today's statement said. Artillery engagements were lively on both sides of the Ancre, on the Somme, east of the Meuse and in the Champagne region.

A French attack southeast of Verdun was repulsed. The Germans lost one aeroplane. Firing is becoming livelier in the eastern sections but weather prevents movements of troops.

The Russian armored cruiser Burik was damaged by a mine in Finland bay.

JAPS HURL ULTIMATUM AT CHINA, REPORT

NEW YORK, Mar. 7.—The Tribune today says that Japan issued an ultimatum to China February 19th, demanding that China enter the war on the allies' side.

PRESENT NO TIME FOR FACTIONAL STRIFE, DECLARES PRESIDENT

WASHINGTON, Mar. 7.—At a White House luncheon to the Democratic National Committee, President Wilson forcefully expressed his disapproval of the failure of the Senate to pass his armed neutrality bill.

The executive discussed at length what he believed to be the basis of permanent peace.

The attitude of the little group of senators who blocked the armed neutrality bill came in for castigation at the hands of the President. It was indicated by the executive that better results were looked for by him if again he tried to effect the bill's passage.

Factional considerations in international affairs are out of place at the present time, said the President.

Vance C. McCormick, chairman of the Democratic National Committee, announced the following executive committee: Homer S. Cummings, Connecticut; Isadore B. Dockweiler, California; Carter Glass, Virginia; Cordell Hull, Tennessee; A. A. Jones, New Mexico; Wilbur N. Marsh, Iowa; A. Mitchell Palmer, Pennsylvania; Frederick B. Lynch, Minnesota, and E. H. Moore, Ohio.

TRANSPORT CRIPPLED

SEATTLE, Mar. 7.—The Merchants' Exchange today reports that an army transport is returning here under its own steam. The vessel sent out distress calls last night owing to a broken steering gear. It sailed for Manila with troops.

Foreign Relations Chairmanship Tilt In Senate Promised

WASHINGTON, March 7.—A Republican caucus today dropped Senators Cummins and Gronna, two filibusters, from the Republican steering committee.

WASHINGTON, Mar. 7.—A bitter fight against re-electing William J. Stone to the chairmanship of the Foreign Relations committee will be made by members of his own party, despite the heretofore inviolable seniority rule that has always prevailed in such matters.

One of the most important Democratic senators who was one of the leaders in the fight to pass the armed neutrality measure, is authority for this statement. However, he admits the fight has as yet taken no definite shape.

The new Senate cannot proceed to business, it was pointed out, until committees and chairmanships have been selected. The Democrats retain the majority sufficient to control the organization.

Unique Situation
A unique situation, however, exists in the new Senate. Senator Kern last Friday presented a resolution which was adopted, continuing the Senate committees of the Sixty-fourth (or last) Congress during the present special session of the Senate.

In the midst of the rules fight yesterday Senator Owen held that inasmuch as the Sixty-fourth Congress died Sunday, they could not in any way govern or even suggest rules for the new Senate.

Owen pointed out that the sixteen new members had every right to demand a caucus even during the special session, since they had no voice in the last session.

At a Democratic caucus held today, a new steering committee will be named.

This committee will recognize the Senate of the Sixty-fifth Congress. Senator Hitchcock, who ranks next to Stone on the Foreign Relations committee in seniority, will, it is confidently believed, succeed Stone as chairman, should the fight on Stone develop the strength necessary to oust him.

Stone Defended
Lukewarm supporters of Senator Stone defended him, saying that he did his duty as chairman of the committee in reporting the armed neutrality bill, in getting it out of committee and before the Senate. They say that not until the bill was before the Senate did Stone express his personal opinion and leave the bill to the mercy of "the filibustering few."

CLEVELAND FIGHTS TO OUST STONE

CLEVELAND, Ohio, March 7.—Cleveland papers have begun a fight to oust Senator William J. Stone as chairman of the foreign relations committee, "as a preparedness measure."

The Cleveland Plain Dealer, today, referring to Stone as "one of the Kaiser's dozen," says:

"As long as this senator from Missouri retains the committee chairmanship, America's armor of defense against the aggressions of Germany will be materially weakening. In times like these it is highly important that the man at the head of this committee should be a senator single in devotion to his own country, of staunch loyalty and unquestioned integrity."

"Stone has failed. He can no longer be trusted or respected. To

TEMPORARY FORCE OF 500,000 MEN PLANNED BY WAR DEPARTMENT

DOUGLAS, Ariz., Mar. 7.—The offering of a force of at least half a million men is indicated, according to army men, in a War Department telegram addressed to regular army officers stationed in this district, directing every regiment to designate at once at least 60 men for commissions in a temporary military force to be organized.

MIKADO'S CABLEGRAM FELICITATING WILSON IS HELD SIGNIFICANT

WASHINGTON, March 7.—In view of the recent German suggestion that Mexico and Japan align themselves against the United States, significance is attached to a message sent by the Emperor of Japan to President Wilson in which the ruler of the land of the Rising Sun tenders his "sincere congratulations" to the President upon the occasion of his inauguration.

The cablegram expresses "ardent wishes" that President Wilson's administration "may be attended by as brilliant successes in the future as it has in the past and that the United States may grow more and more in its prosperity."

leave him at the head of this committee would be like leaving the gate of our wall open to the enemy."

STONE HARD HIT IN ST. LOUIS RESOLUTIONS

ST. LOUIS, March 7.—Senator Wm. J. Stone was hard hit today in resolutions passed by several Democratic ward organizations last night. He was branded a traitor and asked to give an account of his action in not supporting President Wilson's armed neutrality. Each organization endorsed an editorial printed in the Post-Dispatch which said in part:

"The lack of a cloture rule is not the only flaw in the organization of the United States senate. There is another—there is 'Gumshoe Bill' Stone at the head of the foreign relations committee."

FILIBUSTER TREASONABLE, KANSAS RESOLUTION

TOPEKA, Kans., March 7.—A concurrent resolution declaring treasonable the filibuster in the United States senate led by Senator La Follette and participated in by eleven "other wild men" against the armed neutrality bill will be acted upon by the Kansas legislature today. There is no doubt of the resolution's passage, legislators said.

The resolution declares the filibuster has "placed the American people in a false position before the nations of the earth" and that it has "led the warring powers of Europe to believe that we are a divided nation, and worst of all, at the most critical moment has given comfort and assistance to William of Germany, the open, inveterate and barbaric enemy of this republic."

STONE AND LA FOLLETTE LAUDED BY GERMANS

AMSTERDAM, Mar. 7.—Senators Stone and La Follette are lauded by the German press comments as representatives of "the best spirit in America," according to dispatches received here today summarizing German editorial views on the Senate filibuster.

As a whole, the German press regards the filibustering senators' stand as proper in stemming "Wilson's unreasoning ambition" and in voicing the sober sentiment of the American people who "do not propose to join the insanity of war."

Bitter comment on President Wilson's inaugural address was made by the Lokal Anzeiger, which dubbed the President as a "megalomaniac" and declared his speech "desecrated" the national capital.

SACRAMENTO RESOLUTION FLAYS WORKS' ACT

SACRAMENTO, Mar. 7.—Five Democrats today presented a resolution disapproving Senator Works' part in the filibuster.

FILIBUSTERS FLEW IN COLO. RESOLUTION

DENVER, Colo., March 7.—Strongly condemning the act of the twelve filibustering senators who defeated the armed neutrality bill, a new resolution will come before the state senate today in place of the resolution passed by the lower house yesterday. Members of the upper body, wishing to voice a more emphatic disapproval of the filibuster than that expressed by the house resolution, substituted the senate measure.

TAX DODGING SCHEME LAID TO OWNERS OF TRAINLOAD OF SPUDS

COLTON, March 7.—Believed to have been shipped here from another county to evade tax assessment, a train load of potatoes said to be worth approximately \$35,000, was shunted on to a siding here.

Authorities of San Bernardino county were seeking to learn the identity of the owner of the potatoes.

There were twenty-four carloads in the train.

There is nothing to indicate the name of the consignor or consignee.

HOGS REACH \$14.95 IN WINDY CITY TODAY

CHICAGO, March 7.—A fifteen ton jump at the opening of the hog alley today put the top price here at \$14.95 per hundred pounds.

COPENHAGEN EXPECTS BERNSTORFF SATURDAY

COPENHAGEN, March 7.—The Frederick VIII, bearing former German Ambassador von Bernstorff, is expected to reach here Saturday, according to a wireless message received here today.

RULE TO LIMIT DEBATE AGREED ON; PRESIDENT TOLD HE CAN ARM SHIPS

Terms Reached By Rules Committee Restricts Talks By Senators

NEUTRALITY BILL TO BE UP IN NEW SESSION

Daniels Will Soon Instruct Navy Yard Commandants To Issue Cannon

WASHINGTON, Mar. 7.—The Rules committee today agreed on a cloture rule whereby Senate debate on any bill can be limited to one hour by each senator on a two-thirds vote. The rule will be reported to Democratic and Republican caucuses and if adopted when presented tomorrow, it is believed an extra session will be called and the armed neutrality bill re-introduced.

WILSON TOLD HE CAN ARM MERCHANTMEN

WASHINGTON, Mar. 7.—Formal announcement by President Wilson that he will instruct Secretary Daniels to arm American merchantmen, is expected in a few hours.

It has been authoritatively learned that President Wilson has been told he can order guns placed on the ships. Immediately after he receives the order, Secretary Daniels will instruct the navy yard commandants at Boston, Philadelphia and San Francisco to issue what guns they believe are available.

NORTH FAVORED, S. CAL. CHARGE

SACRAMENTO, Mar. 7.—Southern legislators today are declaring that the North is getting the better of the appropriations recommended by the State Board of Control, despite the fact that the South pays 65 per cent of the state's taxes.

SACRAMENTO, Mar. 7.—A constitutional amendment which proposed to give cities or counties the power to enact legislation providing for the formation of segregated districts, "prostitution to be licensed and permitted within such districts," was introduced today by Senator Canepa and Assemblyman Friedmann of San Francisco.

PRENDERGAST BILL HEARING MARCH 10

SACRAMENTO, Mar. 10.—March 20 is set as the date for a public hearing on the Prendergast bill which is being bitterly opposed by anti-vivisectionists. The bill would compel poundmasters to sell dogs and cats to medical colleges.

ASSEMBLY INSURANCE BILL REPORTED

SACRAMENTO, Mar. 7.—The assembly bill giving the state insurance commission full jurisdiction over agents of mutual companies as well as other companies, was reported in the Senate today, having passed the lower house by a vote of 42 to 30.

POSTPONE HEARING ON MARKET CHIEF

SACRAMENTO, Mar. 7.—Public hearing on the Weinstock-Brown market director controversy, originally scheduled for tonight, has been postponed to March 16.

MYSTERY S. F. DEATH UNDER POLICE PROBE

SAN FRANCISCO, Mar. 7.—The police are seeking today to establish the cause of the death of James W. Riley, whose body was found floating in the bay.

Pockets in the clothing of Riley were turned inside out and there was a wound on his head. Riley was 54 years old and a few years ago was a man of wealth. Until recently he has been employed as a collector for a local tailoring establishment, but for weeks has been unemployed and is said to have been despondent over his condition.

POVERTY AND ITS CAUSES TOLD IN TALK BY NEALLEY

Poverty Is a Condition of Subnormal Life, Millions Suffer in Large Cities

"Poverty and its causes" was the subject of E. M. Nealley's lecture last evening in the Intermediate school, it being the fourth lecture in the course of constructive philanthropy being given under the auspices of the Associated Charities. There was animated discussion and many questions from the floor and at the request of the audience Nealley continued the lecture for 40 minutes beyond the hour—the usual time. The subject will be continued at the next lecture, March 20, by request.

"The poor ye have with you always." And until the last century down the long ages we had with us

slavery and pestilence and famine, and men said they were permanent," said Nealley.

"Even Plato, the wisest of the ancient philosophers, perhaps, thought of slavery as the permanent basis of human society. And it was only a century ago that Malthus declared that famine and pestilence were inherent in the order of nature, and we must bow in abject submission. But slavery has gone and pestilence and famine have gone.

Will Poverty and War Go?

"Will we get rid of poverty and war? Well, if I did not think so I should not be wasting my time here tonight talking about the inevitable evil. If man cannot win out at last and control his own destiny, then it matters little to any of us—except to escape. But a new inspiration is with us today. If there is anything characteristic of social philosophy at the present time, it is the absence of anything fatalistically determining human intelligence and human control. The Spirit of the Great Adventure, creative evolution through creative personalities—this is the motive of today's service for tomorrow's achievement."

Nealley discussed the subject of poverty under five general heads: 1.—Definitions of Poverty. 2.—The Extent of Poverty. 3.—The Causes of Poverty. 4.—Theories Accounting for Poverty. 5.—Remedies.

Poverty Condition, Subnormal Life

"Poverty is a condition of subnormal life, a lack of means to satisfy the so-called Primary Wants, of food, shelter, clothing," continued the lecturer. "Pauperism is the condition of actual dependence upon public or private relief for these necessities. Recent reliable estimates place the number of those living in a condition of poverty in this country at 15 per cent of the population. One-third of this number, or 5,000,000 persons, are in pauperism. Thus the pauper population of the whole country is over twice the population of the state of California at the last Federal census. Those in poverty in the whole country number six times the population of this state. In New York and other large cities poverty rarely falls below 25 per cent of all the people. In the principal industrial states the number rarely falls below 20 per cent. In New England there are ten times as many paupers in the almshouses in proportion to population as in the West, South and Central states."

One-Third in Poverty

In London and in York, England, 30 per cent live in poverty. About one-third of the population of our large cities may safely be said to live below the poverty line. It is estimated that 10 per cent of the children in the New York schools are under-fed. One in every ten burials is in the potter's field. According to a report of the Poor Law Commission of England in 1911, thirteen million out of a total population of forty millions do not earn enough to make their families as comfortable as they would be in the poor house.

"Figures given in a report to the National Conference of Charities and Corrections in 1912 showed that there are 920,000 persons in this country in custody, non-productive and living at public expense. The expense of their care is over \$100,000,000 a year. In addition to these inmates of institutions there are about 3,000,000 of the same class outside of institutions, while upon the border line of defective and normal there are several millions more, say four or five millions."

Millions in Needless Wastes

"It has been estimated that the expenditures for needless wastes reach the enormous sum of \$8,715,500,000, or \$90 per capita. These include alcoholic drinks, drugs, sexual vice and disease, shortening of human life, expenses of criminal courts and penal institutions, preventable illness, care of insane in hospitals, patent medicines and nostrums used ill-advisedly. "The workmen of today is exposed to five great misfortunes: Accidents, illness, premature death, unemployment, old age."

"Coming to the causes of poverty, we find no single cause, but a complex of interacting factors and influences. In the words of Prof. Ross, 'We are enmeshed in an unending plexus of interpenetrating associations.' Poverty is not caused by any one thing, but by the whole system of things or the total situation. It is not a disease of the poor, but a disease of the body politic. Hereditary environment and will interacting in a system of things or a total situation of factors. Economic causes in conjunction with physical and mental defects operate in from 50 to 80 per cent of all causes of poverty."

Subjective Causes
"Under subjective causes may be classed sickness and feeble-mindedness, intemperance, sexual vice, laziness and shiftlessness, old age, neglect and desertion by relatives, death of bread-winner, crime, dishonesty, ignorance."

The discussion of this subject will be continued at a later meeting when the question of remedies and general conclusions will be taken up. The discussion centered about the tramp question and question of family rehabilitation. On the latter Mr. Nealley cited instances being actually dealt with by the Associated Charities.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

The Victrola Gives Everybody the Kind of Music They Like Best

Brings the World's Greatest Artists Into Your Home.

The greater your love of music the greater will be your appreciation of the Victrola. This wonderful instrument reveals to you in all their beauty exquisite musical masterpieces superbly interpreted by the world's greatest artists.

Caruso, Alda, Bori, Braslau, Calve, Culp, de Gogorza, Destinn, Farrar, Galski, Galli-Curci, Garrison, Gluck, Hempel, Homer, Journet, Martinelli, McCormack, Melba, Ruffo, Schumann-Heink, Scotti, Sembrich, Tetrazzini, Whitehill, Williams, Witherspoon, Werrenrath, and other famous singers.

Elman, Kreisler, Paderewski, Powell, Zimbalist, and other noted instrumentalists.

Sousa's Band, Pryor's Band, Conway's Band, Vessella's Band, Victor Herbert's Orchestra, and other celebrated musical organizations.

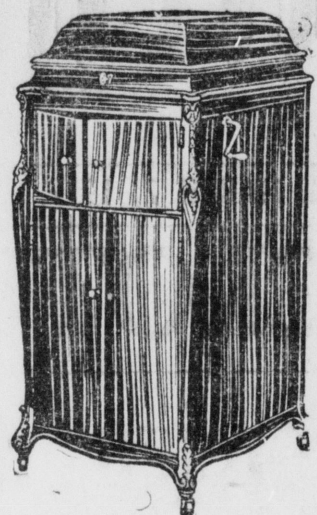

The magnificent renditions of these great artists not only captivate you with their beauty, but weave a new charm around you every time they are repeated. You will find ever new enjoyment in them and marvel at the sublime musical accomplishments of the Victrola.

FREIGHT RATES IN 1916 LOW, IS CLAIMED

SAN FRANCISCO, Mar. —The average freight rate per ton per mile on the railways of the United States was lower in 1916 than it ever was before and the average wage per employee for the year was greater than ever before, says the Railway Age Gazette in an editorial.

"The preliminary summary of returns for the roads earning over \$1,000,000 a year just issued by the Bureau of Railway Economics, for the fiscal year ending June 30, 1916, shows that the average receipts per ton mile were 7.07 mills, as compared with 7.22 mills for the million-dollar roads for 1915, and that the average compensation per employee, excluding officers, was \$840.62 as compared with \$813.17 in 1915," says the Gazette. "The returns, which are compiled from the annual reports of the roads to the Interstate Commerce Commission, represent roads having approximately 89 per cent of the entire railway mileage of the country and 97 per cent of the operating revenues. The average receipts per ton mile for all of the roads in the country will slightly exceed the figure for the larger roads, but the complete figures can hardly fail to show an approximately similar reduction. In 1915 the average for all roads was 7.32, which was lower than for any other recent year except 1913, when the average was 7.29 mills. In 1906 the average was 7.15 mills. The decrease is probably to be accounted for by a greater proportion of low rate commodities, because there was an increase in the tonnage of products of mines from 507,000,000 in 1915 to 646,000,000 in 1916, while the increase in other classes of tonnage was far less in proportion. This doubtless represents the increased movement of coal. The average wage per employee has, of course, been steadily increasing for several years."

PERSONAL AND SOCIAL NEWS NOTES FROM ORANGE CITY

ORANGE, Mar. 7.—Miss Esther Batterman was hostess Monday evening at an informal reception in honor of Miss Ruth Linderman, Miss Gertrude Amling and Harold Amling, all of Chicago, who are at present visiting in Orange.

It was a pleasant affair for the young people who attended. At the close of the evening, the hostess served refreshments. Those present were: Miss Gertrude Amling, Ruth Linderman, Carrie and Alma Kogler, Edna and Alma Wynoken, Minnie Grette, Bertha Ehlen, Irene Weseloh, Leonie Blank, Clara Bunke, Pauline Jacobs, Esther Batterman; Messrs. Harold Amling, Henry and George Seba, Henry Ehlen, Edwin Kogler, Louis Truempler, John Jacobs, Leo Bunke and Herbert Batterman.

Miss Lydia Bortz entertained a few of her schoolmates Monday evening with an affair in honor of her eighteenth birthday, given at the Walter Bortz home, 237 West Almond avenue. The evening was passed with games and music. Miss Bortz's friends remembered her with many pretty gifts. At 10 o'clock the party departed to the home of Henry Bandick, 131 South Grand street, where delicious refreshments were served.

Those present were Misses Elizabeth and Ella Klauer, Anna Elstie, Esther Dierker, Gertrude Klauer, Alma Dierker, Martha Ehlen, Eleanor Loescher, Louise Fitchsen, Erna Bandick, and the hostess, Miss Bortz.

A surprise birthday party, complimentary to Miss Lydia Bortz was given Monday afternoon at the home of Mrs. Henry Bandick, 131 South Grand street.

Needlework and lively social chat furnished entertainment for the guests of honor as remembrances of the day.

At 4:30 a delicious luncheon was served, after which the guests departed, wishing Miss Bortz many happy returns of the day.

The B. F. Clouser home on East

Chapman avenue was the scene of a merry gathering Monday of Santa Ana and Orange people who were being entertained in honor of Mr. and Mrs. J. L. Masten of Greenfield, Iowa, who visited at the B. F. Clouser home.

J. B. Shoemaker and family, Ray Burbank and family, Mrs. P. A. Burbank and mother and Mrs. S. A. Bush formed a picnic party to Laguna Beach Sunday. They enjoyed fishing, spearing and a fine spread.

Mr. and Mrs. E. C. Amling and family entertained with an informal reception to a group of their friends Monday evening at their home, 392 North Orange street.

J. F. Keller and family who have been residing the last year in San Diego, have returned to Orange and will make their home at their ranch on West Laveta avenue.

Mrs. Niles returned Sunday evening to her home in Black Rock, Utah, after a pleasant visit here with Mrs. J. H. McCarthy at the Henry Meehan home.

BOLSA BUDGET OF NEWS NOTES

BOLSA, March 7.—Mr. Fred Woodman is cultivating his beets after the recent rain.

Mr. H. A. Rollins is harvesting his barley crop, which is a quarter of a mile east of the Bolsa store.

Arch Morgan has been working for Mr. John Farnsworth for the past few weeks.

J. J. Stove has rented his ranch for three years to Mr. Miller from Phoenix, Arizona. Stove moved to Long Beach last Thursday and Mr. Miller took possession.

Mr. Head has started thinning his beets, which are just south of the Bolsa store.

The Ross and Walker brothers now have in about two hundred acres of beets and other farmers are closely following.

Mr. and Mrs. Henry Harding of Santa Ana spent last Wednesday with Mr. and Mrs. George Harding.

Mr. Sam Price's brother and family who have been visiting here, have returned to their home in Idaho.

Mrs. Weston spent Wednesday afternoon at Mrs. Farnsworth's.

Mrs. Gardner and Melia Ross spent Thursday afternoon in Santa Ana.

Mr. and Mrs. J. D. Shutt and family of Wintersburg spent Thursday evening at the Gardner home.

Mrs. Eva Brasher of Los Angeles, who spent last week with relatives at Bolsa, has returned to her home.

On account of Rev. Andrews being sick there was no church held at Bolsa Sunday.

Mr. and Mrs. Ben Craig of Anaheim spent last Friday at the Edwards home.

Mrs. George Ross and daughter Evelyn of Santa Ana spent last Wednesday at the W. T. Patterson home.

Robert Hazzard and family spent last Sunday at the B. A. Hazzard home.

Mr. and Mrs. McClintock and son spent Sunday afternoon at Mrs. Blakey's.

Silva Edward is visiting her cousin, Mrs. Charles Fisher, of Anaheim.

Elmer Fowler and Mrs. Stoves and daughter Opal took supper at the Blakey home last Wednesday evening.

Mrs. McClintock spent Tuesday afternoon in Santa Ana.

Maybelle Patterson spent Friday with Mrs. George Ross and family of Santa Ana.

Mr. and Mrs. Gus Ward gave a card party last Monday evening. Those who enjoyed the evening were Lloyd Coarser, Adam Schiffer, Miss Vina Petersen and Miss Louise Grubb.

Mr. and Mrs. Charles Blankenbecker and daughter Della took Sunday dinner at the Luntford home.

Mr. and Mrs. W. L. Ross and children moved Monday to their new home, 810 McCloy street, Santa Ana.

Mr. Ross is working in a big walnut orchard there.

Mrs. Earl Gardner and daughter Margaret spent Monday afternoon with Mrs. Sarah Gardner.

A number of Bolsa people attended a dance at the Wintersburg hall last Saturday night. A very good time was reported by all.

Mrs. Cline spent Sunday at Los Angeles.

Little Robert Stroud has been sick with a severe cold.

Mr. and Mrs. Earl Gardner and family with Mrs. Sarah Gardner spent Sunday at the Orange County Park.

Mr. and Mrs. Arch Morgan visited Sunday with Mr. and Mrs. Henry Hickman and family.

750 GIRLS PUT ON CIRCUS IN NEW YORK

NEW YORK, Mar. 7.—Seven hundred and fifty nifty damsels in a three ringed circus, with animals, red lemonade, pink popcorn, crackerjack, sideshow, ballyhoos and all the regular trimmings is the sight New York is preparing itself for this afternoon.

They're regular girls too, lots of them society girls and lots of them not. They're staging the circus in Madison Square Garden for the benefit of the Vacation association and the show is backed by such society leaders as Miss Anne Morgan, Mrs. August Belmont, Mrs. Robinson Smith and others.

Chief among the attractions will be the bevy of girl clowns, for which Sam McCracken searched the country for months. He declined to sign any of these girl clowns who did not demonstrate that they could look, stand walk, talk and just naturally be, funny. The circus will give performances every day for four days.

CLEAR AWAY THE WASTE
Bowel regularity is the secret of good health, bright eyes, clear complexion, and Dr. King's New Life Pills are a mild and gentle laxative that regulates the bowels and relieves the congested intestines by removing the accumulated wastes without griping. Take a pill before retiring and that heavy load, that dull spring fever feeling disappears. Get Dr. King's New Life Pills at your druggist's, 25c.

WHOLE WORLD WILL BE RECONSTRUCTED FOLLOWING

Moderator of General Assembly Will Be In Santa Ana Tomorrow

LOS ANGELES, Mar. 7.—A period of reconstruction along every line of civilization and such as the world has never seen will follow the close of the present war, according to Dr. John A. Marquis, moderator of the general assembly of the Presbyterian Church of America and one of the famous churchmen of the country. This was the theme of the address by Dr. Marquis at a banquet, given in his honor by the Los Angeles Presbytery last evening. Whether the reconstruction will set earthly progress backward by a thousand years or forward by the same period, will depend, he said, upon the Christians of the world.

Last night's program was presided over by Rev. M. P. McClure, moderator of the Los Angeles Presbytery and pastor of the Hollywood first Presbyterian church. Two hundred and fifty prominent church workers were present.

Tonight Dr. Marquis will be the guest of honor at a great Presbyterian rally in San Diego. Tomorrow will be Orange County Day, with a big gathering of Presbyterians at Santa Ana. Saturday night there will be a rally of the San Fernando Valley Presbyterians in the Glendale church. At all of these gatherings Dr. Marquis will speak.

He will leave on Monday for New York, and on the 17th inst. will sail for Porto Rico, to visit the Presbyterian missions there.

The Federated Aid Society of the Los Angeles Presbytery, including the Presbyterian churches of Los Angeles, Orange, San Diego and Imperial counties, held an all-day session yesterday in Immanuel Presbyterian church.

THEY WERE RUNDOWN

How often we hear it said of a man or woman that "they were rundown in health" which accounts for their present sickness. For that reason it is important that when you find you tire easily, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building food in Scott's Emulsion which contains pure Norwegian cod liver oil and is free from alcohol.

Scott & Bowne, Bloomfield, N. J.

"Crisco Will Make Your Pies Tender and Flaky"

EVERY woman who uses Crisco is glad to tell her neighbor the secret of her delicious pastry.

Crisco gives a tender flakiness to pies. The lower crust of a Crisco pie may be kept as crisp and light as the upper by brushing over lightly with beaten egg white before putting in the filling.

CRISCO
For Frying, For Shortening, For Cake Making

Crisco is the cream of edible oil, wholly vegetable and easily digested. It is pure and wholesome and having neither odor nor taste imparts nothing but richness to foods in which it is used.

Many American housewives give generous praise to Crisco as the shortening which enables them to make unusually good pastry.

Ask your Grocer to send you Crisco

HOTELS FOR HEALTH OR PLEASURE RESORTS

LOST — RHEUMATISM AND STOMACH TROUBLES. FOUND — HEALTH AND HAPPINESS AT MURietta HOT SPRINGS, MURietta, CAL. America's finest Sulphur and Mud Baths and Swimming Pool. Booklet at information bureau, or by writing, Fritz Guenther, Prop. H. Guenther, Manager.

PAINS SHARP AND STABBING

Woman Thought She Would Die. Cured by Lydia E. Pinkham's Vegetable Compound.

Ogdensburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

Mrs. ETTA DORION, Ogdensburg, Wis. Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old-fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound. If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

Now Is the Time to Buy POTATOES

Potatoes are down in price this week and are of the very best quality. The jobbers say it is only a temporary lowering of the market and we think so, too, but we are taking advantage of this condition to save you money. Buy now.

SUPT. OF MAILS. NEW CARRIER PROMISED

Postmaster Overshiner Doing
Politics at Washington
and Getting Results

Santa Ana was represented at the inauguration of President Wilson, Postmaster C. D. Overshiner being the man having the honor of representing this prosperous city.

Overshiner has been hobnobbing with the national law-makers and incidentally doing politics in the interest of the local postoffice. He has been successful in his efforts to secure a superintendent of mails for the local office. He has also been informed by First Assistant Postmaster General Koons that an additional carrier will be added to the city delivery force on or before the first of April.

Overshiner was present in the House when the postoffice conference report was passed and he also witnessed the vote on President Wilson's request for authority to arm American vessels.

He was the guest of Congressman Kettner and enjoyed many privileges through the courtesy of the representative from this district.

Overshiner, writing under date of February 2, to Assistant Postmaster Alexander, says in part:

This morning, in company with Mr. Kettner, I called on Mr. Koons, the first assistant postmaster general, and will say that I got results. He has not yet received Mr. Ranger's report, but he assured me that he would act upon it immediately as soon as it reached him. I asked him to rush it, and he said there is no reason in the world why we should not be able to put the new carrier on by the 15th of this month, any way, by the first of April. It all depends on when Ranger is heard from, and that is liable to be any day now. I find that Ranger stands well here, and whatever he recommends will go. So this is settled, and if you receive word before I return, why, put Cook on, and I will sign papers on my return, March 26.

Promised Mail Superintendent
Now I have gone Ranger one better—I have been assured that I will be allowed a superintendent of mails on July 1. Koons himself promised me this, and it was right off the bat when I requested it. Really, I was completely surprised when he granted my request so quickly. All he asked was: What is your salary? He then informed me we were entitled to a su-

BABY PARALYSIS CURE EXPECTED BY SUMMER

CHICAGO, Mar. 7.—Dr. Maximilian Herzog expects to have perfected a sure cure for infantile paralysis before the fatal hot summer months, he announced today.

"Already," said Dr. Herzog, who has made an exhaustive study of the cause, prevention and cure of the disease which caused so many deaths and so much distress last summer, "the microbe which causes infantile paralysis has been definitely isolated and experiments are being made to locate an antitoxin which effectively stamps out the disease among sheep and cattle."

"We hope to have perfected an effective antitoxin for human beings by summer."

The Chicago health authorities have enlisted prominent physicians, bacteriologists, nurses, women's clubs and civic organizations in a concentrated effort to check the disease before it gets a start in Chicago this year.

BOARD OF SUPERVISORS

DISCUSS DELAYS IN CONSTRUCTION ON SANTA ANA CANYON

Contractor Is Given Thirty
Days Extension, and Ex-
pects Thirty Days More

There was no beating around the bush this morning when H. Clay Kellogg, the contractor for building a new road around Sulphur Slide on the Santa Ana canyon, asked for an extension of time until June for the completion of the job.

County Surveyor McBride, who has been engineer on the job for the county, in a written report declared that the work had dragged along with a lot of delays and through inefficient management. He said that there was a six weeks' delay in getting a pile driver to work after the piles were ready, progress slowly. He said that unsanitary equipment caused the work to progress slowly. He said that insanitary conditions in camp had caused trouble in keeping help.

Kellogg stated that he would reply to the statement in detail later, but off-hand he denied that the delays were avoidable. He said he had done everything he could go to get the pile driver contractor to work, and finally had to spend \$300 himself in getting the pile driver's engine into fix so it would work. He said that the inspector on the job had required that gravel be measured in wheelbarrows before thrown into the mixer, a procedure that Kellogg said was unusual. He said that he had heard no complaints concerning the table. Steno had been taken to remedy whatever difficulties might arise in the sleeping quarters.

Supervisor Struck insisted that every step possible to hasten the work should be taken. It was agreed that some changes would be made to keep a by-pass open. Thirty days' extension of time was given Kellogg. He said that he would have to have another extension at the end of that period.

Against the Bill
The supervisors passed a resolution asking State Senator Evans and Assemblyman Burke to vote against Assembly Bill 603, which provides that every county shall maintain a school for delinquents. Objection to the plan was presented to the board by Judge Thomas, who has a letter from Los Angeles probation officers, who stated that the schools are unnecessary.

Ordinance Passed
An ordinance was passed prohibiting the photographing of people on the county highways unless permission from those photographed is first obtained. The ordinance was produced as a result of over-zealous solicitations by photographers at San Juan Capistrano. It was stated that a machine can hardly draw up before the mission before a photographer has taken a picture and is on the running board persistently demanding an order for photos.

Board Actions
Sheriff Jackson was given a sixty-day leave of absence from the state. He starts for Texas Friday.

The petitions of C. L. Waldo for a pipeline at Yorba Linda and of J. H. Page for one at Buena Park were granted. The petition of J. H. Reagan to abandon a street at Los Alamitos was denied.

CONSERVE CALIFORNIA BUILDING AT S. F. AS NORMAL SCHOOL, URGED

SAN FRANCISCO, Mar. 7.—Many workers for the project of conserving the California building as a State Normal school, will attend the public legislative hearing tonight at Sacramento.

Those who attended the hearing tonight, in favor of the plan, will strongly urge the state aid necessary to visualize the plan. Quick action is necessary, according to Frank S. Brittan, attorney for the Panama-Pacific Exposition Company, who, in speaking of the project, said that the lease, for which the exposition company has paid \$1000 a month for the past four years, has expired. The lease covered the lands on the site of the California building, which have been appraised by a jury at \$185,000. This money must be paid by March 20. Therefore, Attorney Brittan expects that the bill will pass—unless strong opposition develops from some unexpected quarters—by March 13, 14 or 15. It then can be signed by the governor in time to permit the payment of the money to the Herman and Norstrom holdings by March 20.

(CONTINUED FROM PAGE 11)

operation is needed. The growth of any enterprise depends on each one working for the good of the whole. Success in the raising of the industrial fund evidences that the spirit of co-operation does exist to some extent. The M. and M. and of C. need more men who do not think their work ends when they pay their dues. Better co-operation with the board of education and the creation of a better sentiment towards Santa Ana among residents in all sections of the county.

Unity of Purpose
W. N. Vandermaast—Unity of purpose, that's what we should have. We should resolve that Santa Ana is the best town in this section. We should talk it. Boston became known as the hide center simply because one man said it should be and his neighbors co-operated with him. Chicago became a big stock center by the same suggestion and co-operation. We can do the same thing in Santa Ana. Santa Ana is the best town; we can make other people believe it, too. Pasadena, how beautiful? City pride and unity of action has accomplished the result there. We have done much to improve our city in a uniform way. The rich country surrounding our city is to be thanked for what we have accomplished rather than work by our citizens.

"We ought to have a city forester. The county has one and is beautifying the roads into the city. We should do the same in the city."

"Let us have a little self patriotism. Let us have a hotel, let us not forget that there is a site here, a site there—get together and build a hotel on a site that is suitable for it, without regard to what part of town it is located in."

Union Depot and Bridges
"A union depot is needed, a new bridge on North Main street we must have. We should have an ornamental structure there, not an eyesore. We need a bridge on Hannah street. Bristol street should be paved. If the council deems it proper that the city should pay a portion of the cost, they should do it."

"The Chamber of Commerce should appoint a permanent committee on Santa Ana canyon. I have been reliably informed that the canyon has been closed to traffic practically since March, 1914. There have been brief periods only when the road was open. Riversiders and others from beyond come to this county and spend their money. The committee should see what can be done towards keeping the canyon road open."

J. S. Smart—"The city itself is able and willing to supply many of the needs suggested here. If the city council feels that the people are back of them, we can do good work in bringing our people to the support of the council. The outfall sewer we must have and we should all get back of the proposed bond issue and see that the bonds carry."

Value of Hotel
R. L. Bisby reviewed points brought out by the preceding speakers, and touching the hotel situation, said:

"Do you ever stop to think that a hotel brings more money into a community than a factory. Every tourist will spend on an average of \$7 a day. If we entertained 100 a day here that would be \$700 a day or \$21,000 a month."

Bisby regretted that only one member of the city council was present to hear the discussion. He urged unity of action in behalf of the city and said that when citizens joined in the proper co-operative effort Santa Ana would get the hotel, city parks, auditorium and other things needed.

Just before the gathering was dismissed J. P. Baumgartner suggested that possibly a mistake in community work was being made by lack of concentration on one subject at a time. He thought that the one thing most needed should be decided upon and all efforts centralized on the accomplishment of that one need. He believed the business interests, Chamber of Commerce, M. and M. association and other organizations should get behind the sewer and bridge bond issue and see that they are not defeated.

Mayor Presents Gavel
Mayor Visel presented the chairman of the meeting with a gavel to be used in future. He said that he had noticed at the luncheon an absence of authority, and he therefore presented the gavel.

Principal Hammond of the high school was present and extended an invitation for the luncheon next week hence to be held in the domestic science department of the high school. He thought it would be an excellent opportunity for the business men to become better acquainted with what the high school is doing. The invitation was accepted.

Perfect Distribution of Water

By the

Wills Scientific Sprinkling Device

As the result of the perforations of the pipes used in the "Wills" system the water falls upon the lawn, or other space covered, in a steady rain-like manner, thus fulfilling the laws of nature and bringing the best results to the vegetation. Every corner of space is covered, only the walks are left dry.

We offer in this system a combination seldom found. First, Durability; second, Perfect Distribution of Water; third, Cheapness of Price.

We Have Equipped the Lawns and Gardens of Several Santa Ana Homes With This System.

We request the opportunity of giving you an estimate of the cost of installing this system in your lawn.

GENERAL ASSEMBLY MODERATOR VISIT THE PRESBYTERIANS

Dr. John Marquis Is to Speak
At Church In Santa Ana
Tomorrow Evening

Dr. John Marquis, moderator of the general assembly of the Presbyterian Church of America, which is the highest position that any Presbyterian minister can be given by the church, will be in Santa Ana tomorrow.

His visit will be marked by a banquet of the Brotherhood of the church at 6 o'clock. Toasts will be given after the banquet.

At 7:30 o'clock tomorrow evening Dr. Marquis will deliver an address at the First Presbyterian church not only to members of the church, but to any who desire to attend.

Dr. Marquis is president of Coe College, at Cedar Rapids, Iowa. Those not holding banquet tickets will gather at the church at 7:30 p. m.

REDUCING MILK COSTS

An item to the effect that New York's Commissioner of Foods and Markets proposes to sell milk at eight cents instead of eleven cents as sold elsewhere, has more than local interest. His scheme is to dispose of it through groceries and butcher shops. Apparently the public would come and carry their milk home.

The delivery of milk is one of the worst botches in our distribution system. Here is one of the great necessities of life, used by every family. Yet there will be a dozen milk carts running through a street, all duplicating service, labor, equipment, and adding probably twenty-five per cent to the cost.

A combination scheme for eliminating this duplication might or might not work. The monopoly might charge the public so high a profit that there might be no gain. If the city undertook the distribution, the work would probably not be efficiently done. Politics would drive the milk wagon, and there might be no economy.

But it looks as if there might be a saving were milk to be distributed more through stores. Of course there will always be many people who consider their time more valuable than what they could save by carrying home their own milk. Yet there are a great many hard-pressed families who would be glad to save a few cents a day by carrying home their own supplies from the nearest store.

In some of the more primitive summer resorts, this is an every day sight. These resorts are not usually handy to farms, heavy transportation charges have to be paid, and there is a general tendency to soak the summer visitors. But with people coming to the corner general store and carrying home their own bottles, they probably get their supplies quite as cheaply as at home where facilities are far better. There is a suggestion here worth investigating.

PARTIES UNLED

The New York Times thus characterizes the present condition of the Republican party:

"The Republican Party has no leaders; it has no head; it has become simply trunk. At this historic moment it does not know where it is going or what it wants to do. When the historic moment is over, the Republican Party will have no record; it will not have done anything to which it can point. The course of a party in opposition is usually to make a record which will stand out, so that the country will turn to it if it grows tired of the party in power. That course has always been followed, except in the darkest days of the Democratic stupor that followed Bryan's second defeat. The Republican Party, however, is making no record, because it has neither principles nor leaders."

The Times goes on to point out the opportunity for the Republican Party. The Democratic leadership in the present Congress does not speak the voice of the American people. It has been cowed by rumors of pacifism and has made the mistake of taking these rumors for public opinion. The voice of Americanism is not expressed by the Democratic majority, and the Republican minority lacks the leadership to rise to the emergency by expressing it. The Times sighs for the period of thirty years ago, when the Republican Party had leaders—men like Blaine, Edmunds, Ingalls, Hoar, Reed and Sherman. At the opportunity of its history to fill the true function of a minority party and to rehabilitate its claim to be restored as the major party, the Republican party is failing for lack of leadership. So at least the Times charges.

And then comes the Fresno Republican affirming that so far as Congress is concerned, the charge is true. "The failure is palliated," the Republican thinks, "by the fact that the Democratic Party in Congress is equally unled. Its only leadership is in the President. The party system in Congress has broken down, and nothing is in sight to take its place. Unless the next Congress can present the Republican Party with real leadership, its salvation must be sought outside Congress. And to get coherent constructive leadership there will also require revolution. Wherefore, unless war shall divert the attention of the American people from domestic problems, the first task of the next two years must be that of revolution in the organization and leadership of the Republican Party."

WITH MALICE TOWARD NONE

By Henry James

Pity the Poor Prisoner

A kind-hearted woman desires that movie pictures and a piano be obtained for the benefit and uplift of county jail prisoners. Nobody desires to be termed hard-hearted for looking askance at the scheme, but the average prisoner has something coming to him, as the saying is, and it seems hardly reasonable that all of this should be of a blithesome and joyous sort.

A county jail is not a reformatory institution, and cannot well be one. The tenure of its authority over the individual is too short. Beyond sobering the intoxicated, it can do little to reform him, unless he is a speeder or something devoid of degraded status, in which case it might jar his intelligence into activity.

Some prisoners are held to await trial, and if the stay be too pleasurable might connive to delay the trial indefinitely. Others, who have beaten their wives, or stolen pennies from a baby, or been guilty of any of the tricks of the petty criminal, do not deserve to see the movies nor to have their senses tickled by a piano.

There are large numbers of people never in a jail, who suffer much from adversity. If there should be anything left over after these have been provided for, it would be time enough to pamper the potential porch-climbers.

The Yellow Streak

The spokesman of a student delegation that called upon a congressional committee to say there must be peace was named Binder. He said that he would teach his enemies justice and love. If the country were to be invaded he would advocate non-resistance.

Spoken like a bully boy, Binder. That's the talk. When a man is a coward and his liver paler than a pan of skimmed milk he ought to come right out and say so.

Of course, were this nation made up of bloodless Binders any power could walk all over it. It could be trodden under foot by Finland or Patagonia. It could be wallowed to a finish by the remnants of the Blackfoot Indians.

Brother Binder has confessed his cowardice, which required some courage. But he mustn't make the mistake

of labeling his weakness a virtue.

A Short-felt Want

There is a demand for a new cure for rheumatism.

The old and reliable remedy of a potato carried in the pocket has become too expensive.

Incineration

Speculators in food are said to have been incinerating wholesome staples for the purpose of keeping up prices.

To catch one in the act and toss him into a superheated machine would afford a deep and abiding sense of joy.

Too Far to Walk

An American in Copenhagen, and desirous of getting to New York, would be informed that his safest way would be by the Trans-Siberian line. He would go to Petrograd, then clear across Russia and Siberia to Vladivostok. He would reach the Pacific coast through Japan and have 3000 miles of his trip still ahead.

Such a trip would be so long that no tramp ever would undertake it, and so expensive that the traveler would have to give up a veritable fortune.

And having reached California, the traveler would stay here. To go on to New York would be sort of an anticlimax.

Ungallant

A man sued for breach of promise declares that the plaintiff in the case was the one who proposed marriage. Then was his chance to side-step. No use to look for sympathy now.

New Joy for Billy

Some publicity agent has proposed that Billy Sunday be hired to talk patriotism to Americans. The identity of the p. a. is unknown, since he may be Billy's, or in the pay of the actress who was being interviewed.

In either case the plan is no good. Billy has a job that suits him. This government, just now at much expense for army and navy, could not afford to pay him enough to wean him away from the collections that make Billy's end of the sawdust trail so attractive. Moreover, Billy would teach more

slang than patriotism, and this country does not need lessons in either.

Both Are It

When potatoes were selling for \$5.50 in this peaceful and prosperous country, the price in London was \$5. War is exactly what Sherman said. Peace, too, if you like potatoes.

MAN FOUND GUILTY BY JURY OF MEN, WOMEN GETS SENTENCE TODAY

WHITTIER, Mar. 7.—Found guilty of operating a blind pig, Joe Gilboy, who was tried by a jury composed of seven prominent society and club-women and five men, today was scheduled to be sentenced.

The charge against Gilboy was operating a blind pig.

Gilboy's trial was the first of several that will be heard by women juries.

Eighteen women already have been summoned for jury service and all have responded readily.

The case of an alleged woman boot-legger will be heard March 12 by a jury composed wholly of women.

MUSCLE SORENESS RELIEVED

Unusual work, bending and lifting or strenuous exercise is a strain on the muscles. They become sore and stiff, you are crippled and in pain. Sloan's Liniment brings you quick relief, easy to apply, it penetrates without rubbing and drives out the soreness. A clear liquid, cleaner than musky plasters or ointments, it does not stain the skin or clog the pores. Always have a bottle handy for the pains, aches of rheumatism, gout, lumbago, grippe, bruises, stiffness, backache and all external pain. At your druggist's, 25c.

FOR FARM SCHOOL

Mrs. C. F. Crose Reads Paper Before Woman's Club, Tells Of Its Advantages

The Woman's Club met yesterday afternoon at the home of Mrs. J. E. Liebig on Chestnut avenue. Mrs. Charles Stanley, vice president, presided. At the business session, Mrs. Cynthia Moesser was unanimously elected to membership in the club.

A pleasing program was given consisting of a paper on "University Farm School and What it Offers to the Young," given by Mrs. C. F. Crose. People are coming to recognize that agricultural education is a public question; that it is a question that concerns the general public more than the farming classes. Our population is increasing faster than our food production.

The agricultural teachers of Los Angeles county are appealing for support for the Evans bill, which provides for the establishment of an agricultural school along lines similar to those of the university school at Davis.

The state school at Davis has proved of great benefit to California and a similar institution in the south will prove equally as profitable as a state investment.

Not only is Los Angeles county pushing for this school but many other counties are urging the passing of this bill.

Many beautiful quotations from favorite authors were given in response to roll call.

Delicious orange confections were liberally dispensed to the members by the hospitable hostess.

—O—

Organize Mission Study Class

The Epworth League of the Richmond Avenue church will meet at the church this evening at 7:30 to organize a mission study class to take up the study of South America.

Miss Iva Webber is in charge of that department.

—O—

Tustin Literature Section

Mrs. W. M. Belding at her home on the corner of Seventeenth street and Prospect avenue, was yesterday afternoon hostess to the Tustin Literature section with about a dozen members present. The home was adorned with lovely pink petunias.

The topic for the meeting was Spain and each member had an interesting paper, the various subjects being music, sports, poets and noted people, dress, habits and customs.

Mrs. Belding served very delicious refreshments and a social time was enjoyed.

W. C. T. U. MEETING

Belle Rogers Union Hears Mrs. Mills Talk On Temperance Work

The Belle Rogers Union held a very interesting meeting yesterday afternoon in the Armory parlors.

Mrs. Elizabeth Mills, of Orange, county organizer and lecturer, gave a most interesting talk, brimful of encouragement and helpful suggestions, awakening enthusiasm and fresh hope in the hearts of those who had grown somewhat "weary in well-doing" and inspiring them to renewed and even greater effort for the cause to which each had pledged her best endeavors.

Mrs. Mills graphically portrayed the heroism and self-sacrifice of the noble pioneer women, who launched the great temperance movement at a time when women were supposed to be unfitted by nature, custom, and Biblical authority to take any part in the educational and religious work of the world that would bring them before the public as speakers and teachers of a great reform movement like temperance.

Women had been taught to "keep silence in the churches," and out of them, so that when women finally attempted to speak in public the meeting would be reported in the papers as "the cackling of hens." But thanks to the devotion of those fearless souls the work inaugurated by them has grown to such magnificent proportions that it now encircles the globe, uniting the womanhood of every land into one great sisterhood, working for the salvation of their homes and loved ones from the blighting touch of the great destroyer, the liquor traffic. Surely such work is the divine call to the mothers of men.

Mrs. Grace Moesser, at the organ, led in singing selections from the new Campaign song book. Mrs. Winnie Biggs rendered two beautiful vocal solos entitled "Just For Today" and "The Bluebird," which were greatly appreciated and enjoyed.

Mrs. Clara Wedgwood, the efficient secretary, read a briefly compiled record of the year's work of the union and its present finances.

Short talks were made by several members and new methods of work outlined and adopted.

It was decided to hold an all-day meeting March 20th, at which time the election of officers will take place.

The afternoon program will be arranged and conducted by Mrs. Lash. Mrs. Grace Moesser and Mrs. Biggs will provide the music. Mrs. Garrison and Mrs. Wedgwood will prepare a program for the morning meeting. A day full of interest and sociability is assured.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more yawning, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh.—Advertisement.

SO. CAL. AUTO CLUB ELECTS SAME CHIEFS

America's largest motoring organization, the Automobile Club of Southern California, at its annual election has selected its officials for the coming year.

The same officials serving during 1916 were returned to office as a result of the election, these including Fred L. Baker as president, W. L. Valentine as first vice president, H. G. Miller, second vice president; Standish L. Mitchell, secretary, and Ralph Reynolds, assistant secretary.

According to a statement made by Mr. Baker, this is to be the most active year in the history of the automobile club, as the greater support given it by automobile owners makes possible greater activity for the good of Southern California.

HAWAII

By W. H. THOMAS

A REAL THRONE ROOM IN A REPUBLIC

American ideals of government have forbidden thrones, crowns, scepters, titles of nobility and other forms of royalty, while decades of self-government have created an aversion among the American electorate to rulers by right of succession, yet there is a throne, a throne room, a crown and scepter within the borders of the great American Republic, visited daily by Americans, principally tourists, who gaze with dreamy eyes upon the symbols of royalty which recall to the imagination grand receptions, presentations, and gorgeous settings for the ruler's state appearance before his people.

Where is this throne in democratic America? Where are displayed symbols of rule by divine right in this broad land freed from such rule by patriots of 1776?

In all the vast area from Maine to

PROMINENT WOMEN ENDORSE OUR STATEMENTS.

Del Rey, Cal.—"I am thankful for the opportunity to send a testimonial. I had been bothered for six years with nervousness, a catarrhal condition which only women are subject to and irregularity. Tried several medicines but all failed. I was advised by my friends to give Dr. Pierce's medicine a trial. Have taken four bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery' and I cannot say enough in regard to the benefit received.

"Will take pleasure in recommending your medicines to all weak and suffering women everywhere I go."—MRS. CAROL L. HOGG.

The mighty restorative power of Doctor Pierce's Favorite Prescription speedily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

It is a wonderful prescription prepared only from nature's roots and herbs with no alcohol to falsely stimulate and no narcotic to wreck the nerves. It banishes pain, headache, backache, low spirits, hot flashes, dragging-down sensation, worry and sleeplessness surely and without loss of time.

Get it now! All druggists. Write Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for free 132 page book on woman's diseases.

when kings and queens, princes and princesses, ministers of cabinets, ambassadors and plenipotentiaries, made Hawaii the favorite theme of great writers and poets, singers and players, of the days when it was a pawn of international diplomacy, but held strongly to American principles and protection by the stern announcement of Daniel Webster to other nations to keep their hands off the "Paradise of the Pacific."

Across the tall, stately windows, all of which can be thrown open upon the wide porticoes, as doorways, fall the heavy brocade curtains just as they were draped during the reign of Kalakaua and Liliuokalani, for their palace was erected in 1886, replacing the less imposing structure of coral, which had replaced the original palace of the early Kamehamehas which was built according to the architectural ideas of that date—a huge low structure, with pointed roof sloping swiftly down to low eaves, thatched with pili grass, through which no drop of rain could permeate. The palace of Kalakaua was and is pretentious, a two-story, square building superimposed upon a basement story and surrounded by stately portico columns of iron and cement, surmounted by attic and flagstaff towers, a building of beautiful lines, a combination of grace and state lines, which has won the admiration of visitors, even from the capitals filled with royal palaces.

Aside from the state banquet hall, and the basement offices, the well-equipped kitchens and pantries and wine cellars, the beautifully furnished private apartments of the royal family, the throne room was a hall of well balanced proportions, whose walls were pierced with many window-doors; the ceiling plastered white and garnished with moldings in which the Hawaiian coat-of-arms predominated and from which were suspended crystal chandeliers glittering with beautiful pendants, replicas of chandeliers then hanging in European capitals. Above each window was a pair of crossed spears, gilded, symbols of the days when the Hawaiians battled with spears and javelins. Surrounding the room were high-backed gilt and brocade chairs, small editions of the chairs upon the throne.

The etiquette of the Court of St. James prevailed in this throne room of the Hawaiians, and upon state occasions, when a reception, levee or ball was given, it fairly blazed with gilt-garnished uniforms, and costly gems worn by the fashionably-gowned women, both Hawaiian and foreign. The famous Hawaiian band, directed from 1872 until 1915 by a bandmaster sent from Prussia by Emperor William to King Kalakaua, played in an ornate bandstand in the grounds not far distant from the throne room. If the admiral of a fleet—and many foreign warships visited Honolulu in those merry, good old days—was received, the clank of swords rose above all other sounds, for the King and Queen had extensive military staffs.

But the days of royalty are gone; the empty dais and the canopy and the heavy window hangings and the oil portraits of the former dynasties, and the crossed spears are mute evidence that once upon a time kings and queens were wont to assert their sovereignty within these silent walls. But above the canopy where once was a gilded crown, there now poises a gilded eagle.

Where the king and queen once presided at state dinners, the senate of Hawaii now holds its biennial sessions; where the king slept in a big room above, the American governor of the Territory, appointed by the President at Washington, now has his office; other former boudoirs and bedrooms are occupied as offices by the Secretary of the Territory, the attorney general, the territorial auditor, the superintendent of public works, whose prosaic titles replaced the more glittering ones of Minister of Foreign Affairs, Minister of Finance, and Minister of the Interior, while down in the basement where the wine was kept cool, and the dishes were cleansed and the cooks prepared the food, federal and territorial officers administer their departments, while the stately throne room is given over every two years to sessions of the House of Representatives.

Directly behind the dais is a hard-wood door, covered with a heavy curtain. Through this door in the old days the king and queen entered directly from the robing room and stood upon the dais. Nowadays, when the House session is about to open, the door is opened and the curtains swept aside when the Speaker of the House makes his appearance and brings the gavel down upon his desk with an authoritative crash. He is a real king, however, and his word is almost absolute, which was not exactly the case with His Majesty.

As time goes on, tender memories are recalled of the good old days with its opera bouffe kingdom, its symbols of royalty, its gay life and the brilliant balls and receptions in the throne room, and, although Mark Twain said of the government of Hawaii of that period, that "It had the machinery of an ocean liner in a sardine box," there is a growing desire to retain the throne room as it was during the days of Kalakaua and Liliuokalani, and the legislature has passed acts requiring all portraits of the Hawaiian rulers to be kept permanently upon the walls, and the hall otherwise undisturbed.

Tourists flock to the throne room and roam over the Palace, inspecting portraits, the beautiful koa (native wood) furnishings and finishings and express surprise that away down in the middle of the Pacific was there so perfect a palace of royalty.

Not far away in a mansion built of coral stone nearly seventy years ago, now resides the deposed queen, Liliuokalani, in the long eventide of her once stormy career. It was the home of her husband, Hon. John Dominis, whose death spared him the humiliation of witnessing his wife's downfall in 1893, scarcely two years after she mounted the throne, following the death of her brother, King Kalakaua. It is a fine mansion, typical of the big pillared and porticoed mansions of the South long "before the war of '61." Time has eased many of the ill feelings of the past, and today those who deposed Her Majesty are callers at her home, where she receives in a semi-royal state, one of her military staff as in the old days today serving as chamberlain, surrounded by many evidences of the royal days, by the royal Hawaiian Standard of silk, and by kahilis, tall cylindrical-shaped standards formerly of colored feathers, the queen is given obeisance by American and European alike.

As her life draws nearer to its close, for she is quite feeble, she devotes many hours a day to the compilation of an Hawaiian-English dictionary, a volume of which will be of rare value in preserving a slowly disappearing language of mellifluous beauty. The

Try This! All Dandruff Disappears and Hair Stops Coming Out

—Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance. Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—Advertisement.

Mother Why Don't You Take Nuxated Iron

And Be Strong and Well and Have Nice Rosy Cheeks instead of Being Nervous and Irritable All the Time and Looking So Haggard and Old?—The Doctor Gave Some to Susie Smith's Mother and She Was Worse Off Than You Are and Now She Looks Just Fine.

NUXATED IRON WILL INCREASE THE STRENGTH AND ENDURANCE OF WEAK, NERVOUS, CAREWORN, HAGGARD LOOKING WOMEN 200 PER CENT IN TWO WEEKS' TIME IN MANY INSTANCES.

THE CHILD'S APPEAL

"There can be no Beautiful, Healthy Rosy Cheeked women without Iron."
F. KING, M. D.

"There can be no healthy, beautiful, rosy cheeked women without iron," says Dr. Ferdinand King, a New York physician and author. "In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have strongly emphasized the fact that doctors should prescribe more organic iron—nuxated iron—for their nervous, run-down, weak, haggard looking women patients. Pallor means anaemia. The skin of the anaemic woman is pale, the flesh flabby. The muscles lack tone, the brain fails and the memory fades and often they become weak, nervous, irritable, dispondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these improved, polished, and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked are responsible for another grave iron loss."

"Therefore, if you wish to preserve your youthful vim and vigor, to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

"As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away habit forming drugs and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of people might be saved, who now die every year from pneumonia."

with His Majesty.

As time goes on, tender memories are recalled of the good old days with its opera bouffe kingdom, its symbols of royalty, its gay life and the brilliant balls and receptions in the throne room, and, although Mark Twain said of the government of Hawaii of that period, that "It had the machinery of an ocean liner in a sardine box," there is a growing desire to retain the throne room as it was during the days of Kalakaua and Liliuokalani, and the legislature has passed acts requiring all portraits of the Hawaiian rulers to be kept permanently upon the walls, and the hall otherwise undisturbed.

Don't suffer! Get a dime pack of Dr. James' Headache Powders.

You can clear your head and relieve a dull, splitting or violent throbbing headache in a moment with a Dr. James' Headache Powder. This old-time headache relief acts almost magically. Send some one to the drug store now for a dime package and a few moments after you take a powder you will wonder what became of the headache, neuralgia and pain. Stop suffering—it's needless. Be sure you get what you ask for.

monia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood.

On account of the peculiar nature of women, and the great drain placed upon her at certain periods, she requires iron much more than man to help make up for the loss.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were all the while doubling their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old form of reduced iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children, is a fact, not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated by you.

Dr. Ferdinand King, New York physician and author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—Says anaemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American Woman.—Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good, advises use of only nuxated iron.

use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good, advises use of only nuxated iron.

queen has written many beautiful Hawaiian legends, composed many of the standard musical selections of a Hawaiian, and is a gifted and fluent conversationalist, speaking English with scarce a trace of accent, which would not be surprising as she was born at a time when English was not yet taught as a compulsory part of the educational system.

So, Americans who have little dreamed that there is just a real throne in their great Republic, have only to place the Hawaiian Islands in their "See America First" itinerary, step aboard a palatial ocean grayhound at San Francisco, sail two thousand miles westward in the direction of the romantic South Seas over sun-kissed waters, turn to the right, and enter beautiful Honolulu harbor, the "Crossroads of the Pacific," where Uncle Sam is now completing a \$20,000,000 naval station, and a system of fortifications which verge on the stupendous, for he has already stationed 9,000 American troops on guard in Hawaii and will soon add 6,000 more, to what is already a splendid up-to-date city and community, with cable and wireless systems, miles and miles of beautiful motor roads and thousands of high-powered automobiles; with watering places open the year round and with representatives of so many residents residing in such perfect amity, and in the highest ideals of the Brotherhood of Man, and that they have become better known as "The Melting Pot of the Nations."

ENTERS BRITISH ARMY WITH A COMMISSION

FULLERTON, Mar. 5.—A third son of A. W. Daniels of this city has joined the British army, according to W. H. Daniels, brother of A. W. Daniels.

He is Delbert Daniels and up to the time of his enlistment he was pastor of a church at Brantford, Can.

When the cry for men was sounded after the outbreak of the European war, Delbert Daniels offered himself at the recruiting station, but asked that the government grant him a commission to which he was entitled by reason of former military experience. The government, according to A. W. Daniels, refused to endow him with a commission and young Daniels declined to enter the army under those conditions.

Lately, however, the government reversed its first decision and Daniels is now a full-fledged officer in the British army.

SHIP'S SMOKE SCREEN Baffles SUBMARINES

NEW YORK, Mar. 7.—The Cunard line's Carmania, the first merchant ship to reach this port equipped with elaborate apparatus for creating smoke screens, is in port here today from Liverpool.

The Carmania carried sixty passengers and mails.

To her smoke screen apparatus the Carmania owes her escape, so far, from attacks by U-boats.

You can tell the women with plenty of iron in their blood—beautiful healthy rosy cheeked women full of Life, Vim and Vitality

good, otherwise it may prove worse than useless. I have used Nuxated Iron widely in my own practice in most severe aggravated conditions with unfailing results. I have induced many other physicians to give it a trial all of whom have given me most surprising reports in regard to its great power as a health and strength builder.

Many an athlete and prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena. While many another has gone down to ignominious defeat simply for the lack of iron.

Dr. Howard James, late of the United States Public Health Service, said: "It should be brought home to the minds of the young as well as the elder women of America, what a wonderful change will take place in many cases, when Nuxated Iron is taken; how it will cause the enriched blood to bring the roses to their cheeks, sparkle to their eyes and the elasticity to their steps."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine or secret remedy, but one which is well known to the druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, or upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as run-down conditions. The manufacturers have such great confidence in nuxated iron, that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman who lacks iron, and whose strength they increase 200 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by all good druggists.

DENTISTS' OFFICES ENTERED, ROBBED BY EXPERT THIEF

ORANGE, Mar. 7.—Thieves who looted the dental offices of Dr. A. H. Tyrrell and Dr. C. S. Parker in this city Saturday night escaped with gold valued at close to \$100.

The robbery is believed to have been committed Saturday night though not discovered until Monday morning. Fresh varnish applied to the floor in front of Dr. Parker's office Sunday revealed no tracks, as would have been the case had the thieves made their visit after it was applied.

The burglaries were very neatly accomplished by picking Yale locks on the office doors. Other aspects of the case lead to the belief that it was the work of professionals rather than local talent. There is said to be a class of thieves, usually men who have become to some extent familiar with the dental profession, who confine their activities strictly to the business of looting dentists' offices. They work systematically and at intervals, usually working an entire county or section at once.

From Dr. Tyrrell's office in the Ehlen and Grote block, about \$30 worth of gold was taken. The dentist had secreted the gold beneath a drawer, but the burglar located it. It was all 22-karat gold, the operators leaving a quantity of 22-karat solder, which they evidently scorned to handle, and with the eye of experts cast to one side.

The toll extracted from Dr. Parker's office in the Franzen building, amounted to about \$60 worth of bridges, gold plate and other items of the metal. Saturday night Dr. Tyrrell was in the mountains on a camping trip.

Old Folks Saved From Suffering

Mrs. Mary A. Dean, Taunton, Mass., in her 87th year, says: "I thought I was beyond the reach of medicine, but Foley Kidney Pills have proven most beneficial in my case."

Mr. Sam A. Hoover, High Point, N. C., writes: "My kidney trouble was worse at night and I had to get up from five to seven times. Now I do not have to get up at night, and consider myself in a truly normal condition, which I attribute to Foley Kidney Pills, as I have taken nothing else."

Mrs. M. A. Bridges, Robinson, Mass., says: "I suffered from kidney ailments for two years. I commenced taking Foley Kidney Pills ten months ago, and though I am 61 years of age, I feel like a 16-year-old girl." Foley Kidney Pills are tonic, strengthen, dislodge up-building and restore normal action to the kidneys and to a disordered and painful bladder. They act quickly and contain no dangerous or harmful drugs. Rowley Drug Co.

Relay—Won by Santa Ana (Johnson, L. Plavan, Osborn, Raney).

Notes

The ball team was scheduled to engage Orange in a return game tonight after school. Morrison or Brooks was slated to fling.

The initial fracas of the baseball season in Santa Ana is set for this coming Saturday when the Sherman Indians come to town to tussle with Smith's gang. The team is desirous of drawing a large crowd out to their games and fully intend to give the fans their money's worth by scalping the Redskins instead of the usual stunt being perfected on the pale-faces.

At the opening of spring sports, track looked dark and baseball rosy. Right now, those conditions are reversed. Coach Hall and Captain Raney are getting more and more confident that their tracksters will seize the Smith trophy March 17th.

On the other hand, something is decidedly wrong with Smith's ball-tossers. They have been displaying peevish, bush-league baseball and "Shorty" knows it. Last night he gave Bryan and Tyrrell seats on the bench and used new men in their places. Unless a change for the better is made pretty soon the big coach expects to make some radical moves with the squad's present composition.

Tennis will soon be in the sport followers' limelight, keen interest in the game being shown this year out at Poly. Devoid of veterans there is plenty of chance for new blood to tear in and win monograms. Among those showing to good advantage are Trago, Pentecost, Robertson, Gray, McClelland, Jerome, Kellogg and Jayne.

AT THE COURTHOUSE

For Maintenance
Lenna M. Hawley has brought action against Charles B. Hawley for separate maintenance. Tipton & Calor are attorneys for the plaintiff.

Confirms Sale
The superior court has entered an order confirming the sale of lots 15 and 16, block 11, P. E. subdivision of the Ross tract, by the estate of Caroline M. Conn, of which D. N. Kelly is executor, to O. L. Halsell, for \$180.

To Quiet Title
Suit to quiet title to land at Fullerton has been brought by S. M. Christanson against Bert Annin, administrator. H. H. Coyle is attorney for the plaintiff.

Ladies! Your Spring Suit, designed to your measure, at a special reduced price. Order it now. Chas. Land, 109 East Third street.

MANY SPLENDID FEATURES ARE COMING WITH CHAUTAUQUA

Big Entertainment Week Will
Come the Last of April or
the First of May

According to a letter received today by A. B. Gardner, chairman of the Santa Ana Chautauqua committee, this year's Chautauqua, to be presented in Santa Ana, is one of the best programs ever arranged by a Chautauqua for this coast.

The Chautauqua managers state that they expect to schedule Santa Ana for the last week of April or the first week of May. A definite date will be announced probably within ten days.

"Patriotism, Progress, Happiness and Community Development" are the watchwords of this year's Chautauqua. A feature will be the singing of the national hymn at the opening of every session.

A fine big Chautauqua tent is to be brought here, one that will be far better suited to the work than the one used last year.

Among the splendid attractions this year will be the presentation of "Pinafore" and the presentation of "Little Women." Most of the players made names for themselves in the productions in New York.

Among the lecturers will be Gov. Patterson of Tennessee, Thomas Brooks Fletcher, Lou Beauchamp, William Rainey Bennett, and Rev. Edward Amherst Ott.

Among the musical entertainments will be one by the Metropolitan Men Singers, a quartet, and one by the Keller-Wille Co., violinist and pianist.

The Althea Players, consisting of six young women, are to give an entertainment. Hawaiian Singers, Jane Dillon, reader, Ada Roache, a funny girl, and Magician Buerot, are on the Chautauqua program for this year.

It is declared that the children's Chautauqua will be the best the Red-patch people have had.

GROSEMAN ARRESTED IN LOS ANGELES ON SUSPICION HERE, TOO

C. W. Groseman, arrested here last week on suspicion of having a stolen automobile, was arrested in Los Angeles yesterday following information given the Los Angeles police by Deputy Sheriff Cravath. Yesterday Groseman had a machine that it is believed was stolen. It is thought parts of that machine were changed with parts of the machine he had here. Ownership of the machine taken from Groseman here has not been determined.

TOM GIBBONS TO MEET BATTLING LAVINSKY

NEW YORK, March 7.—Eddie Kane, manager of Tom Gibbons, announced today he had signed articles for a ten round bout the night of March 20 between Gibbons and Battling Levinsky. The bout will be staged in St. Paul.

Real Estate Transfers

(Furnished by the Orange County Title Company.)

March 5, 1917.—Deeds

WON'T DELIVER CHILES UNLESS THEY GET \$5 MORE A TON

Thirty-five Japs Make a Demand on Cannery For Raise In Contract Price

Thirty-five Japanese ranchers, mostly from the Garden Grove section, have demanded that the contract price for chile peppers to be delivered to the California Packing Company's plant in Santa Ana be raised \$5 a ton. The Japs went in a body to the company's office in Los Angeles, and there presented their demand. The contracts for the growing of the chiles were signed several weeks ago. Probably the soaring prices in commodities caused the Japs to believe that they could get more money for the chiles than they had signed up for.

It is asserted that the threat was held out that unless the raise was agreed to by the cannery people, the Japs would not plant their lands to chiles. Just how far the delegation went in that matter could not be determined today.

The cannery building on East First street is being fitted up for the coming season. Locally, little is known concerning the visit of the Japanese growers to the Los Angeles office. Manager Kitterman of the local plant stated that he had nothing to say concerning the matter.

10,000 AD MEN ARE EXPECTED AT CONCLAVE

ST. LOUIS, Mar. 7.—Ten thousand advertising men at the national convention of the Associated Advertising Clubs of the world here in July will outline plans not only to promote, but to compel absolute honesty in advertising, both among newspapers and advertisers themselves in the United States.

The groundwork, the advertising men feel, has been laid by their several year's campaign advocating honesty in advertising. A number of newspapers have inaugurated honest advertising campaigns and much progress, the organization feels, has been made. Now the plan will be to go out and actively fight dishonest advertising on a national basis.

The Club's National Vigilance Committee has done a lot of work already, but this will be increased and developed, the Committee forming the basis for the national campaign for honesty in advertising.

When the Sutorium returns that suit, the general verdict is: "It looks just like new." Call 279.

CUBS BEAT TIGERS

LOS ANGELES, Mar. 7.—The Vernon Tigers threw an awful scare into the Chicago Cubs yesterday, but the Cubs finally got away with the game 6 to 3. Chicago used four pitchers and Vernon two, Wortmann of the Cubs hit a home run with the bases choked.

SPANISH WOMAN SAYS MAN DISTURBED HER WHEN URGED TO MARRY

Mrs. Jesus Cadare, a Spanish woman of 805 East Pine, has secured a warrant for the arrest of E. C. Lee, a Korean, on a charge of disturbing the peace. She told Deputy District Attorney Keesel that Lee promised to marry her, and got a license, but has never carried out the wedding plans. She says that when she insisted that the marriage plans be carried out, Lee used unseemly language. That is why she had him arrested.

CALLENS IS CHOSEN DISTRICT CHAIRMAN

At a meeting of the directors of the Talbert Drainage District yesterday, R. L. Callens was elected president and Mrs. Erma Hayes secretary. H. C. Head was continued as attorney. Callens, Leo Borchard and S. W. Price are the directors.

The Westminster Drainage District directors, W. D. Johnston, Ed Golder and E. B. Finley, elected Johnston as president, Willis Warner as secretary and Williams & Rutan as attorneys. Delhi Drainage District elected J. M. Jamison president, M. O. Robbins secretary, Williams & Rutan attorneys and J. L. McBride engineer. The directors are Jamison, J. S. Ellis and Mike Babylon.

BEES WIELD BATS
PORTERVILLE, Cal., Mar. 7.—Bill Bernhard has not yet found it necessary to separate any of his Salt Lake recruits from their jobs, but is expected to begin this unpleasant task next week. The Bees have been paying more attention to batting practice than to anything else.

OAKS BEAT YANNIGANS
BOYES SPRINGS, Cal., Mar. 7.—The Oakland regulars beat the Yannisans 5 to 2 in a game yesterday, although the Yannisans outthrew them. Both teams showed a great deal more pep than previously. Maybe a tongue lashing administered by Del Howard had something to do with it.

OFFERS MILITARY PRIZES
CHICAGO, Mar. 7.—Five hundred dollars in gold to the American league team best versed in military tactics by next July and \$100 for the drill master of the squad, is the prize offered today by President Ben Johnson. A board of officers from the regular army are to be judges.

BETZEL SEEKS COIN
HOT WELLS, Tex., Mar. 7.—Bruno Betzel will do his "up in the air" stunts in an aeroplane instead of around the Cardinals' third sack unless he gets a boost in the pay check. Bruno says he needs the dough, not the exercise, hence the threat to quit baseball for aviation.

KREJCI JOINS INDIANS
CLEVELAND, Mar. 7.—"Pat" Krejci, best of Cleveland's "sand lotters" and an experiment, hastened toward New Orleans today to join the Indians. He's all set. Some catcher is "Pat," as is shown by the way he caught on to that name when his sand lot pals told him "Yaro" would never do.

SHORE TWIRLS
HOT SPRINGS, Ark., Mar. 7.—Ernie Shore, who pulled into the Red Sox camp last night, will make his initial appearance on Majestic Park field today. Forrest Cady is another newcomer.

Eagles usually hunt in pairs, ornithologists say, one bird frightening the prey from its hiding place and the other pouncing upon it as it tries to escape.

SAVING MONEY WHEN YOUNG

Twenty is the egotistical age of man.

He is wiser at this age than both his parents, and usually ignores their advice to save and have his own bank account.

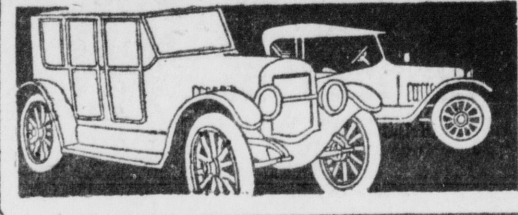

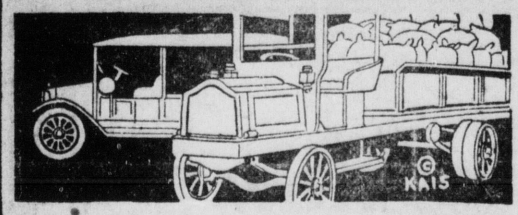

At thirty man wants to save. But he has started late and the struggle is keen.

At forty practically every man has met with some serious financial trouble. If his credit and character are firmly established he more than likely pulls through.

At fifty only one man in a possible thousand can establish a financial rating.

Do you see the importance of building your credit while young?

An account at the Farmers & Merchants' National Bank or the Home Savings Bank of Santa Ana is an effective way to begin.

SANTA ANA, CALIFORNIA, WEDNESDAY EVENING, MARCH 7, 1917.

Santa Ana to Have Finest 'Auto Row' in Southland

PLANS WILL MAKE BRILLIANT STREET OF THOROUGHFARE

In view of the increasing importance of the auto business in California, manufacturers are awaking to the advantages of establishing western branch factories. Automobile representatives and dealers, who know, say there can be no question but that the majority of leading eastern auto factories are giving serious thought to this proposition. The Chevrolet auto factory at Oakland and the Moreland truck factory in Los Angeles have demonstrated their usefulness. They have lowered freight and service charges and are selling their outputs to us at eastern prices.

In both cases the western branch factory idea has proven an efficient, money-saving, business-getting move. Auto buyers are saving from \$75 to \$250 on each car or truck purchased.

AUTOMOBILE GROWTH
This desirable condition is being brought about by the rapid development and growth of the automobile. Few comprehend the enormous growth in the demand for the self-moving vehicle within the year. In 1916 the number of motor cars built in the United States exceeded a million. The total valuation of all motor vehicles in operation for the first time exceeds \$1,000,000,000. In 1915 the number of motor cars turned out was 892,618, and that number was nearly doubled last year, the total production of which was 1,617,708.

These are surprising figures, and when it is borne in mind that of this million and a half of motor cars of 1916 less than a hundred thousand were commercial vehicles, (an enormous growth of vehicles of that description is to come later), we gain an idea of the great influence of the automobile on the social life of the nation.

HIGH PRO RATA
Automobiles are not only a means of diversion of the rich, not only an instrument of pleasure, substitutes for the brougham and pair of old; but they are fairly transforming life throughout the country. They have helped solve problems that other inventions could not solve. In the rural districts they have made neighbors of people dwelling many miles apart who in the old days would not have seen each other often than once a year. They have made good roads essential where before they were only desirable. Nowhere in America is the automobile industry developing so rapidly as in California. Statistics show that our pro rata of machines is larger than even New York state, and that two of our counties—Los Angeles and our own Orange County—are right up in front with the country's first three.

WAR HAS HELPED US
Thousands of motorists who spent former years touring Europe were forced by war conditions to do their motoring in California. Its beauties were viewed with amazement and delight. A vast majority of these tourists little dreamed of the wondrously picturesque places and the almost perfect hotel service which could be found here. It is very safe to say that many thousands of motorists will more frequently spend their summers and winters in this country, and many of the delightful inns throughout this state which had formerly received scant patronage, will be visited each year by an increasing army of motorists who are learning to appreciate our good roads and pleasant stopping places.

California probably received a larger portion of motor travel than any other section of the country. The generally good condition of our roads and our beautiful scenery have been brought to the attention of motorists. The outlook for 1917 is extremely bright. "See America First!" has been such a potent slogan that the year 1916 was the one in which the high-water mark of automobile touring in California was reached.

MORE WESTERN PLANTS
There are increasing evidences that the automobile industry is growing to big things on the Pacific Coast. The demand of the machine-purchasing public, in the west, has ever been for the elimination of the things which tend to make ownership here more ex-

pensive and a car more difficult to maintain. The time will come when all the more important makes of automobiles will have western factories, thus doing away with the excessive freight charges and lowering the initial price of the car to coast owners.

Another thing which has become important on the coast, is service. The west is fast becoming world famous for its wonderful roads. With the increased highway mileage, touring and general travel by automobile has grown. In fact, it is a very ordinary thing to spend a vacation on wheels. Trips of more than one thousand miles in length are nothing unusual. With the advent of this wide-radius touring has come the call for adequate service. In other words that system which is interchangeable over a great deal of country.

Service coupons, service cards and service stations have long been in vogue, and have proven a decided convenience to auto tourists.

SERVICE IMPORTANT
But, unquestionably, the more important factor is that of service; that is, co-operation between dealers and service stations. The necessity for this has come about chiefly since the beginning of the famous good roads system. The west introduced the long-distance method of travel. Five hundred to one thousand mile auto trips are common things in California. And transcontinental tours are looked upon as "quite the way to do it."

Dealers and local distributors, in direct touch with the auto owner, were first to recognize the advantages and necessity of establishing a more thorough service for customers. Thus came the idea of bunching, as it were, the various garages into one certain locality.

An auto tourist, en route from one place to another, sees a garage sign and knows at once that the particular service station representing the car he drives must be near at hand. Under this new service plan the owner need not search the town to find the garage he wants, but will find it at hand, with the others.

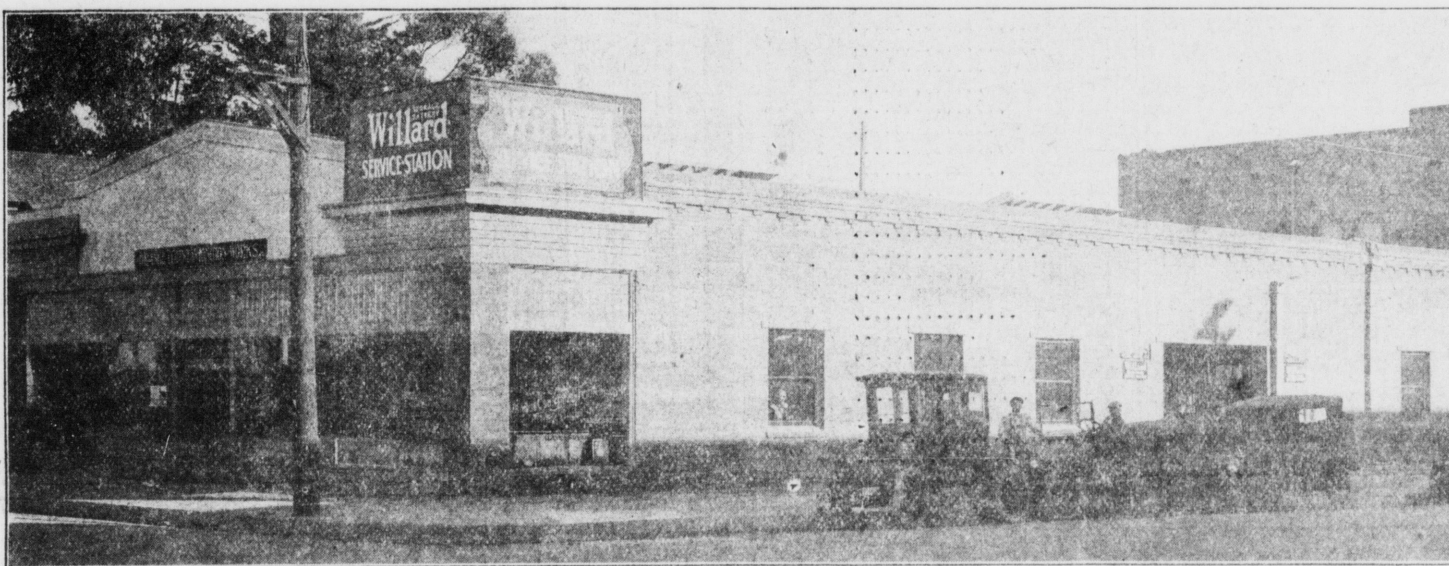

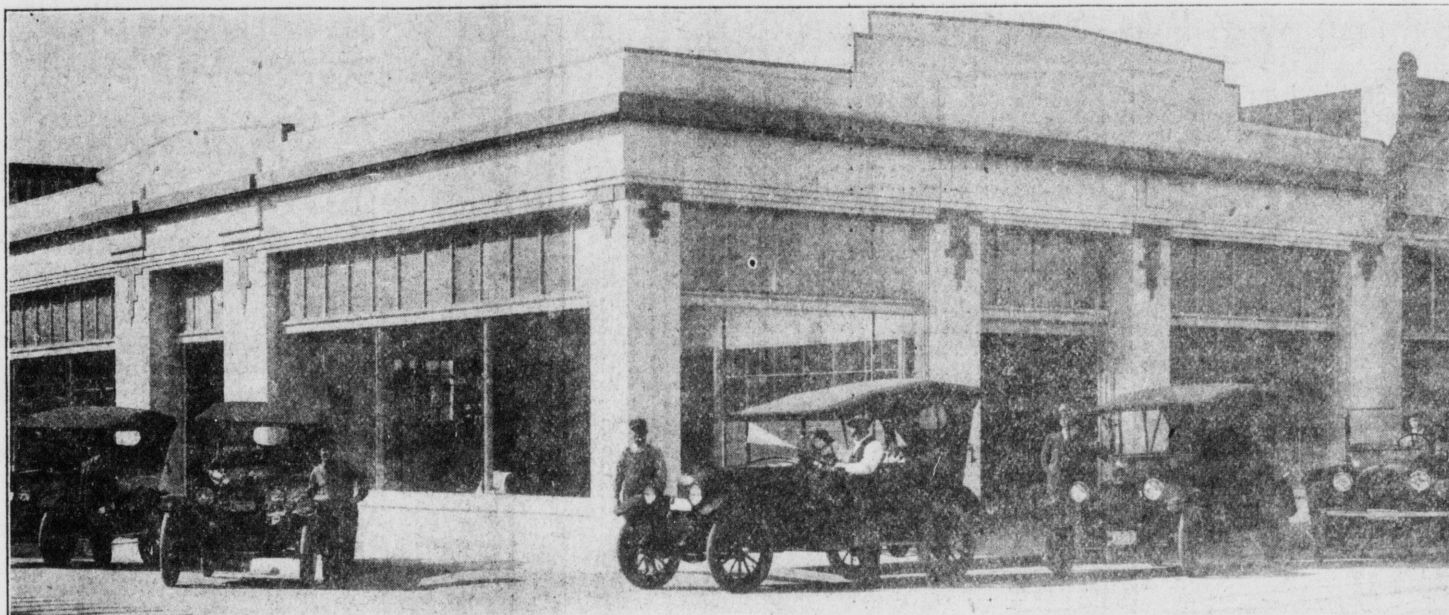

WORKING IT OUT LOCALLY
Inasmuch as Orange County is recognized as one of three leading counties in America in the pro rata of machines, it was only a natural evolution that Santa Ana dealers should be among the first to adopt the service-plus plan of dealing with automobile owners. An Auto Row, a place where they could bunch themselves on one street, or within two or three square blocks, and thus be as near the auto tourist as possible, seemed desirable; and several auto dealers who were in the market for leases found ready response from property owners to the Auto Row suggestion.

The logical auto row in the city appeared to be Fifth street. It is close to the center of the city. It is just off the main highway. It is easily approached from three directions. It has no car tracks, which are always a source of danger to the autoist, especially when he must back out of the garage. Another drawback to the car track question is the small space it allows for turning purposes. All in all, Fifth street answers the demands of an Auto Row and will unquestionably prove a boon to the present and future auto owner in the city and to the auto tourist.

HOW IT STARTED
The East Fifth street building boom started a few months ago with the almost simultaneous construction of auto salesrooms and garages on the corner of Bush and Fifth and Spurgeon and Fifth, the former occupied by the Grant Motor Company and the Ideal Tire and Rubber Company, and the later by the Orange County Ignition Works. Since then improvements have been going on at a rapid pace. In fact, the East Fifth street boom is the biggest Santa Ana has enjoyed in several years. The property owners behind it are mostly young, progressive men,—the kind who are known to do things and stay by a proposition of merit until completed.

IMPROVEMENTS PLANNED
At present two fine buildings are in process of construction, and others are planned for the near future. Wells Brothers are putting up a fifty-foot

TWO of the handsome automobile structures recently completed on Fifth street. The upper picture is the Grant building, southwest corner Fifth and Bush. It is occupied by the Grant Car and the Ideal Tire & Rubber Co. The lower picture is the Orange County Ignition Works structure, southeast corner of Fifth and Spurgeon.

front building for C. C. Crawford, Oldsmobile distributor, and another, adjoining, with seventy-five feet on East Fifth and one hundred on Bush, to be occupied by O. A. Haley, Hudson, Dodge and Vim truck distributor.

Upon completion of the handsome Grant building, on the southwest corner of East Fifth and Bush, which was built by the John McFadden Co., things began to clean up in good shape. The entire McFadden frontage has enjoyed improvements of one kind or another. The present location of the Chevrolet car was remodelled and painted white.

Another building of considerable importance is soon to be erected by the Pacific Telephone Company on the northeast corner of East Fifth and Bush.

STREET PAVING AND LIGHTING
Without a single exception every property owner on East Fifth street is in favor of immediate street pavement as far east as the railroad tracks. Ornamental lighting is under consideration and will probably be a reality within a few weeks.

O. C. IGNITION WORKS' BUILDING LARGE

One institution of considerable importance and one that Santa Ana auto owners should be particularly proud of, is that occupied by the Orange County Ignition Works.

It is by far the largest building of its kind devoted exclusively to auto electrical apparatus, so necessary to run an automobile.

Earl Matthews, the proprietor and manager, had this building designed to his special requirements by Wells Brothers. The Orange County Ignition Works is agency for Willard Storage Batteries, and many other of the popular makes of auto electrical starting and lighting systems.

In this new location the firm is in position to do things along big lines. The policy of expert workmanship is in keeping with Mr. Matthews' ideas of what an auto electrical station should be. The building is one of the first to be constructed since the Fifth street industrial boom began.

And Then?
Mr. Miggs—Didn't you hang up any mistletoe?
Miss Jiggs—Any time when I get into the cars where I have to hang up mistletoe, I'll deny myself to callers.

It is calculated that when a man walks a mile he takes on an average 2263 steps; but when he rides a bicycle with an average gear he covers a mile with an equivalent of only 627 steps.

LUTZ & COMPANY AUTO ROW LEADERS

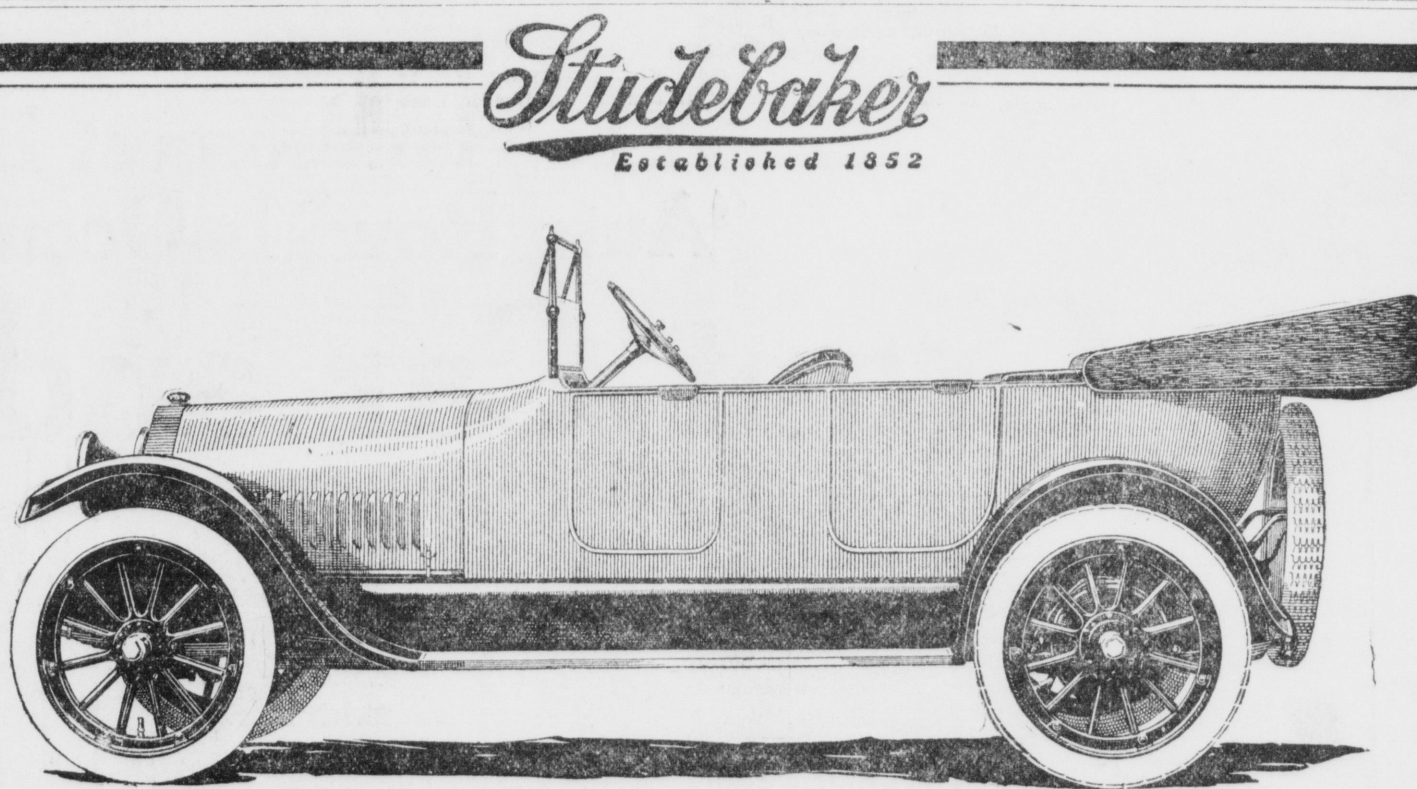

Wm. F. Lutz & Company, distributors of Studebaker cars, are the pioneers of the Fifth street Auto Row idea. They have been located on the present corner of Fifth and Spurgeon for nine years.

Fred L. Ross, manager of the auto department, handed us the following interesting article on the question of car shortage:

The time-honored custom of sitting back and letting things take their natural course finds no place in the business of manufacturing automobiles. Motor car makers have gained recognition as the most progressive of modern industrial leaders; they have thrown precedent to the four winds and have gone right ahead and successfully accomplished the things that "just couldn't be done."

During the present serious famine in freight cars, perhaps no other industry has been harder hit. With the new models announced and orders pouring into the factories from all parts of the country, the problem of getting the cars into the hands of dealers has been one that taxed the genius and originality of the most versatile manufacturer. Cattle cars, gondolas and flat cars have been used to ship trainload after trainload of new automobiles from the Detroit factories; but now even the privilege of commandeering these rather crude methods of automobile shipping are denied motor car manufacturers. The shortage of coal and other absolute necessities have tied up these cars for the present.

With all available storage space filled with millions of dollars worth of new automobiles, all tagged and ready for shipment to dealers throughout the country, a serious crisis seemed imminent. But here again, as in the past, the ingenuity of the automobile manufacturer came to the rescue. And now, at the big Detroit Studebaker factories each day, one may see hundreds of dealers, with their drivers, starting out on whole-sale "drive-aways." Not a day passes but what long strings of new series 18 Studebaker cars leave the factory for distant cities.

We Are the Pioneers of the East Fifth Street "Auto Row" Idea

STUDEBAKER ACCESSIBILITY

—Both the Series 18 FOUR and the Series 18 SIX Chassis are the evolution of four years' experience and concentrated study.

—Mechanically, these cars have been improved, refined and perfected, until today we believe that the chassis represents the finest piece of motor car mechanism on the market. This continuous study, based on the experience of 250,000 owners, is manifest in simplified design and wonderful accessibility. You can easily get at every part of the Studebaker car for adjustment or for inspection.

—It is distinctly the "Owner's car"—distinctly the car for the owner who likes to take care of his own car. The design is so simplified, the function of each part so obvious, and the detail so easy to get at, that you can very soon understand your car and learn to know it, and especially so when you are taught by the Systematic Service System, which every Studebaker Dealer has established for Studebaker owners.

Wm. F. Lutz Co.

East Fifth and Spurgeon.

Distributors for Studebaker Cars

FIFTH ST. BOOM BIGGEST IN YEARS

Industrial Development Prom- ises to Result in Fine Auto Row For Santa Ana

The industrial boom on Fifth street started about three months ago. Wm. F. Lutz & Co., pioneers of the movement, attempted to convince others of the possibilities of this avenue as an industrial street and especially as an auto row for some years, but property owners and tenants did not seem to appreciate the advantages.

The Orange County Ignition Works was the first building to be erected under the new boom. Then came the Grant building, and at present, two others, the Haley and Crawford structures, are in process of construction. That property owners and tenants are enthusiastic about the present development may be seen from the following personal statements:

F. C. Remsburg says:
"It seems to me to be the logical thing to have the auto people all in one section. It will bring a great many to this street and aid business as a whole. I know it will be bound to benefit my paint and wall paper store, and I am further willing to consider the erection of a building on the vacant property I have adjoining, the same to be occupied by an auto accessory establishment. This Fifth street industrial boom is the biggest thing that has struck Santa Ana in some years."

George R. Wells says:
"I believe there is a great future ahead for Fifth street, and especially so as an Automobile Row. In the past three months we have replaced three of the oldest landmarks with new buildings, all of them occupied by responsible auto dealers."

"With street pavement to the tracks and ornamental lights under consideration, Fifth street has a great future."

W. C. Wells says:
"I have great confidence in the future of Fifth street. The improvements already in and those under construction will add to the property value of this vicinity."

"Let us all boost for lights and pavement extension on this important thoroughfare. Such advantages will result in far-reaching effect."

O. A. Haley says:
"With an Auto Row, people coming to the city to buy a car don't have to hunt all through town to find what they want. They can make comparisons side by side. I prefer Fifth street because it is away from the traffic congestion, and yet just off the

main highway. I can take care of both transient and local business on Fifth street."

H. M. Bartlett says:
"When I came to Santa Ana I wanted a new up-to-date building, but none was to be had in the location I wanted—Fifth street."

"This thoroughfare looked like the logical location for an automobile man, the place where business would eventually have to come. So I took this present location, though not new, in preference to going elsewhere."

Earl Matthews says:
"We ought to have an Auto Row on Fifth street. On this street you don't back into a street car when you leave a garage. I recall several accidents when I had my business on a car track street."

"I came here in the first place because it looked good to me."

Billy Penneck says:
"Fifth street is centrally located. You can't get away from that. The tourist strikes it from everywhere, and when it is paved to the tracks, and Bush and Spurgeon with it, it will be a big thing to the town."

"There are seven of us here now, and when we get the ornamental lighting system we'll have a great Auto Row."

C. C. Crawford says:
"This Auto Row will make it possible for the buyer of a machine to see cars side by side. It will bring dealers together, which, in view of the importance of Orange County as an auto section, is an important thing."

"It is unquestionably the logical place. It is an A-1 location, lays in the center of the city and has no disturbing car tracks."

E. M. Matthews says:
"If we did not believe in Fifth street as an Auto Row we would not have had this building constructed to our order. We've spent lots of money here because we believe it is the proper place to spend and establish ourselves."

Dr. Price says:
"A few years ago I tried hard to dispose of my holdings on East Fifth street. Today I would not care to consider selling. I'm tickled that I failed to sell."

"If course I am for paving the street through to the railroad tracks and putting in ornamental lights at once. Let's do a good job of it while we're at it."

E. S. Morrow says:
"The Pacific Telephone Company selected the site on the corner of East Fifth and Bush as its future location because it was centrally located and yet off the busy thoroughfare. Our two story building on this corner, when completed, will bring a great many people to the street."

Among Book Lovers
Peggy—Did you ever read "Ashes of Empire?"
Glory—No, but I've been reading the "Mashes of Vampire."

Love Powder
He loved her madly, so he said,
And held a pistol to her head.
Oh, oftentimes life seems dull and flat,
How would you like a love like that?

WE OWN MORE CARS THAN REST WORLD

An automobile census of the world, according to Motor Age, shows the United States to be the owner of more machines than all the rest of the world combined several times over. The figures given are:

Afghanistan	65
Algeria	5,900
Arabia	50
Argentina	12,350
Australia	20,350
Austria	13,160
Belgium	9,400
Bolivia	19
Brazil	5,400
British North Borneo	5
British South Africa	8,340
Bulgaria	3,050

Our New Building On Auto Row

Our large, new, red brick building is the biggest thing of its kind in the county; that is, it is by far the largest single establishment devoted exclusively to **Auto Electrical Apparatus**.

In our present location we have plenty of space, a very large stock and a fine equipment. The size of our building is 50x125 feet and our establishment is considered the largest Auto Electrical Works this side of Los Angeles.

Our Various Departments

Our specialty is auto electric work, including recharging and repairs of batteries, repairs of all auto electrical apparatus, dynamos, starting motors, magnetos and ignition apparatus.

Ours is the service station for "Willard" Storage Batteries. We have also been appointed service station for "Gray & Davis" and "Electric Auto Lite" starting and lighting systems, and Splitdorf ignition system.

Our policy of **Expert Workmanship, Right Prices, Unexcelled Service** is one of the features of Auto Row.

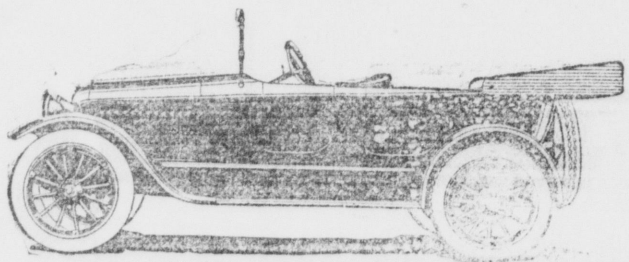

We invite the public to inspect our new quarters.

Orange County Ignition Works

AUTO ROW

Big Red Building, Southeast Corner Spurgeon and East Fifth.

The Handsomest Building on "Auto Row" Is Occupied By the Grant Car and Hood Tire

We pride ourselves on two things—the handsome building we call our headquarters and the classy, efficient car occupying the quarters. Both have features not easily equalled.

Better than any words, a demonstration of the Grant Six will reveal motor qualities you might be disposed to think incredible in a car of the Grant Six price—

Flexibility, silence, smoothness and balance. Come and see.

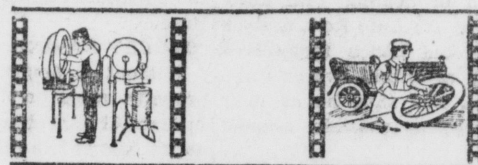

There are other features of the Grant Six that will please you. Come and compare.

This is a year of big values—but every comparison you may make will but serve to emphasize Grant Six value.

Let us demonstrate the Grant.

Grant Motor Car Co.

Phone 1323.

Since we've been in this fine new building, with entrance and exits in the front, side and rear, we have been in position to "do things" in the tire and vulcanizing line.

For one thing we have secured the agency for Hood and Puritan Tires. There is as much difference between the Hood tire and the average tire as between a Packard and a Ford car. Hoods are "all wool and a yard wide."

Puritans are made to give service at a standard price.

Both are in keeping with our policy of guaranteeing all that we sell and all that we do.

We're judges of tires and vulcanizing.

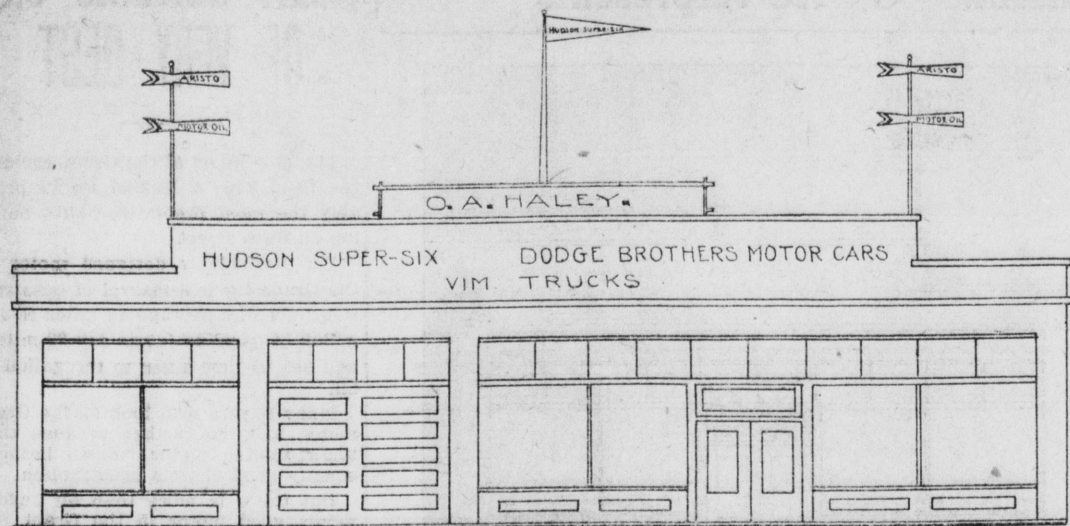

We'd like to convince you of this. **Everything Guaranteed.**

Ideal Tire & Rubber Co.

MATTHEWS & PENNOCK.

Southwest Corner Fifth and Bush Sts.

New home of Hudson Super-Six, Dodge cars and Vim Trucks. The building will be completed about April 1st. O. A. Haley is the occupant.

O. A. HALEY'S LOCATION ONE OF BEST

O. A. Haley, distributor for Hudson and Dodge cars and Vim trucks, will be the tenant of the new structure now in process of erection on the northwest corner of Fifth and Bush. Haley found it necessary to have more floor space in order to handle the big business he is developing, and chose this location because of the future it has as an auto row.

The structure will be 70x100, one story. It will be modern in every particular and contain many conveniences which do not obtain in local garages. Particular attention will be paid to the show room. Offices, rest rooms and other accommodations for the public will be provided.

The arrangement of the space and exits will be such as to prevent blocking of the garage. Front and rear exits will make it possible for a machine to drive in the front door and out the rear, while a large space will be reserved in the center for the parking of cars of owners who drive in for minor adjustments on their machines.

The building will be of brick, with the front finished with cement and plate glass windows.

Haley will install up-to-date repair equipment, and the pit will be one of the features of this department. Tool ledges will be put in to make it more convenient to handle work over the pit.

Haley will move to the new quarters about the first of April.

He will handle the Hudson and Dodge cars and the Vim truck. In his new location he will display one of the most complete auto fronts in Orange County.

The Hudson Super-Six, because of its motor principle, was recently made the subject of exhaustive study and experiment by the mechanical engineering department of the Leland Stanford University. A series of tests were made in the engineering laboratories at Palo Alto.

In their papers on the subject, the Leland Stanford University engineering students wrote the conclusion that the Hudson Super-Six motor principle will deliver more power per cubic inch of displacement than any ever built. The university engineering department has studied the motors of every well known automobile now being manufactured. The Hudson tests were conducted under the direction of E. S. Anderson, a well known western mechanical engineer.

The question is often asked in motor car circles as to whether Dodge Brothers have devoted much attention to export business.

While officials of the company maintain their usual reticence in discussing matters of policy, it is known that the company has had a very successful year in export lines and that Dodge Brothers' cars have won a popularity abroad that rivals the esteem in which it is held at home.

No figures are given out on the actual number shipped to foreign countries, but it is known that agencies have been established in the principal European countries, and throughout the far east, particularly in India and Australia.

VIM TRUCK

All Vim models are mounted on the one Standard Vim chassis, which presents the very best in mechanical construction, design and material.

Concentrating all our energy on one chassis in this way has won for it the extraordinary reputation for dependability and economy of operation that it enjoys, and has enabled the manufacturers to become the largest exclusive producers of motor trucks in the world.

CHEVROLET ENDURES SEVERE TEST

The Chevrolet auto distributor of Fresno recently put this remarkable little car through a severe desert test. When the "Four-Ninety" model had successfully completed the ordeal, the gentleman, J. A. Dollisan by name, had the following to say:

"We put this car to the most severe tests, through the sand on desert work and over all sorts of mountainous road and as we knew that the results were being watched closely by many interested motorists we ourselves were anxious to see how it came out.

"After many hundreds of miles of this sort of work the car performed so well and stood up in such a good manner and furnished so much power that we now have several orders for these 'Four-Nineties' and I know that there will be several carloads of these cars placed in and around Bakersfield in the next sixty days.

"We want cars up there for real work. We don't have nearly so many fine boulevards which you have here in Southern California, and to make good, a car must have the staying qualities that will keep it going."

The Bartlett Motor Company are local distributors of the Chevrolet and have been located on East Fifth street since the firm bought out Connick & Board.

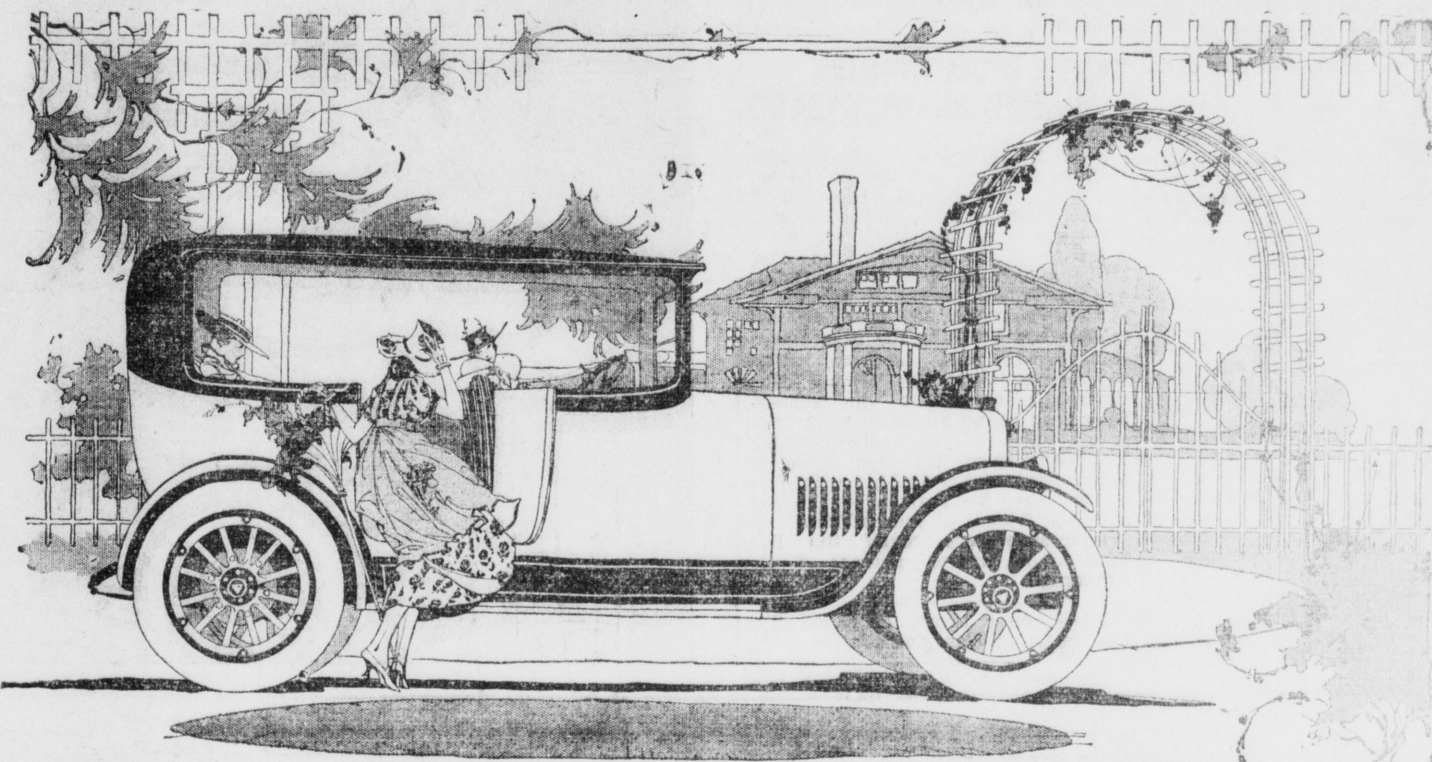

Reasonable

Willie (reading the Bible)—Pa, it tells here about the evil spirits entering into the swine.

Father—Well, my son?

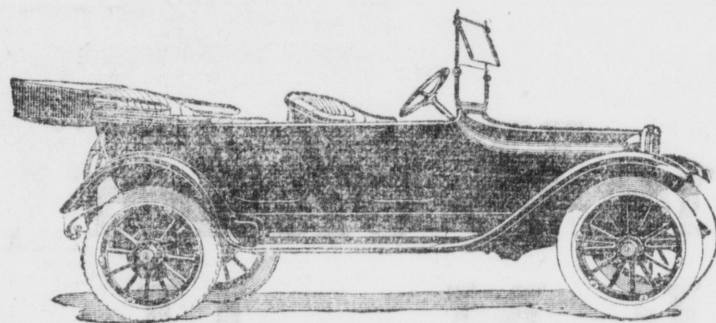

Willie—Was that how they got the first deviled ham?

Here Are Three Winners You'll Find on the N. W. Corner Fifth and Bush After April 1st

Don't Confuse the Hudson Super Six With Others

- No other Six is like the Super-Six. The distinction lies in a Hudson invention.
- That invention—applied to a Six of the finest type—increased its efficiency 80 per cent.
- So the difference is tremendous.
- No Eight or Twelve has anywhere near matched the Super-Six in performance. That's why those types have not been more adopted.
- The Super-Six holds all the worth-while records.
- It has proved supremacy in every point that counts.
- It is now the largest-selling fine car in the world.

DODGE BROTHERS MOTOR CAR

—Everybody knows that the Dodge car is the finest automobile in the world for the money. So there is no use to go into details and tell you about the features that make the Dodge what it is. You already know them. The only trouble is that we can't get enough of 'em.

VIM
DELIVERY CARS

"The Product of
Experience."

Made in
California.

You'll Find the "Chevrolet" and Our "Exclusive Service" at 114-16 East Fifth St.

As its advertisement—so the car. An honest announcement goes with an honest car.

Truth is the eternal test.

You will never read a Chevrolet statement making any extravagant claim.

True, we have claimed certain qualities for our car—superior motor-power, easy riding comfort, low cost of upkeep—but we have always been prepared to support our statement with the proof.

We claim that the Chevrolet model—now as always—stands for the highest motor value in its price class.

Test our statement—see the Chevrolet car, ride in it.

You will find—as thousands of others have—that we have spoken the truth.

The price of the popular "490" model delivered in Santa Ana is \$625.

The classy Chevrolet Roadster is \$610.

C. C. CRAWFORD HAPPY MAN THESE DAYS

C. C. Crawford, who will occupy fifty feet on East Fifth just as soon as the building, now nearly completed, will be finished, is wearing a broad smile these days. C. C. waited a long while for the new Olds, and now that it has come he has been making deliveries galore. His new building is also a source of delight to him. All in all, Crawford is the happy auto man of the city just now.

PRaise FOR OldS

Nothing but words of praise are heard where the model 45 Oldsmobile Eight is on exhibition. After putting the Oldsmobile 45 through several severe performance tests Crawford said: "It's no wonder the Oldsmobile 45 was the sensation of the New York automobile show this year."

The car is roomy and comfortable, with new style upholstery of finest quality, bright finish, black leather and in box pleats, with no buttons to gather dust and dirt. The motor is an advanced eight-cylinder design, very quick and develops 50 horsepower, brake test.

The light weight of the car, 3,000 pounds ready for the road, is the feature that most appeals to automobile buyers. "The trouble with most cars of the seven-passenger type is that they are altogether too heavy for the sandy roads. The Oldsmobile 45 combines light weight and power in plenty, the two essential features in large cars for valley use." No small saying in tires is the result of the

car's light weight.

NEW OldS SERVICE

The Oldsmobile Company of California is now in a position to offer Oldsmobile owners uniform service from the Canadian border to the Mexican line, from Spokane to Phoenix. The system is simple. Every time an Oldsmobile is bought, the owner is given a coupon book, allowing so many hours of free service. This book is issued from the agency where the car is purchased, but its units of time are good in any Oldsmobile establishment on the Pacific Coast, under the control of the Oldsmobile Company of California.

SANTA ROSA HONORS FAMED PLANT WIZARD

SANTA ROSA, Mar. 7.—Today Santa Rosa is doing homage to Luther Burbank, plant wizard, whose sixty-eighth birthday falls upon this date. Programs in all the public schools is a feature of the day. Mr. and Mrs. Burbank have accepted the invitation of City Superintendent of Schools T. F. Brownson to visit all the schools and listen to the programs.

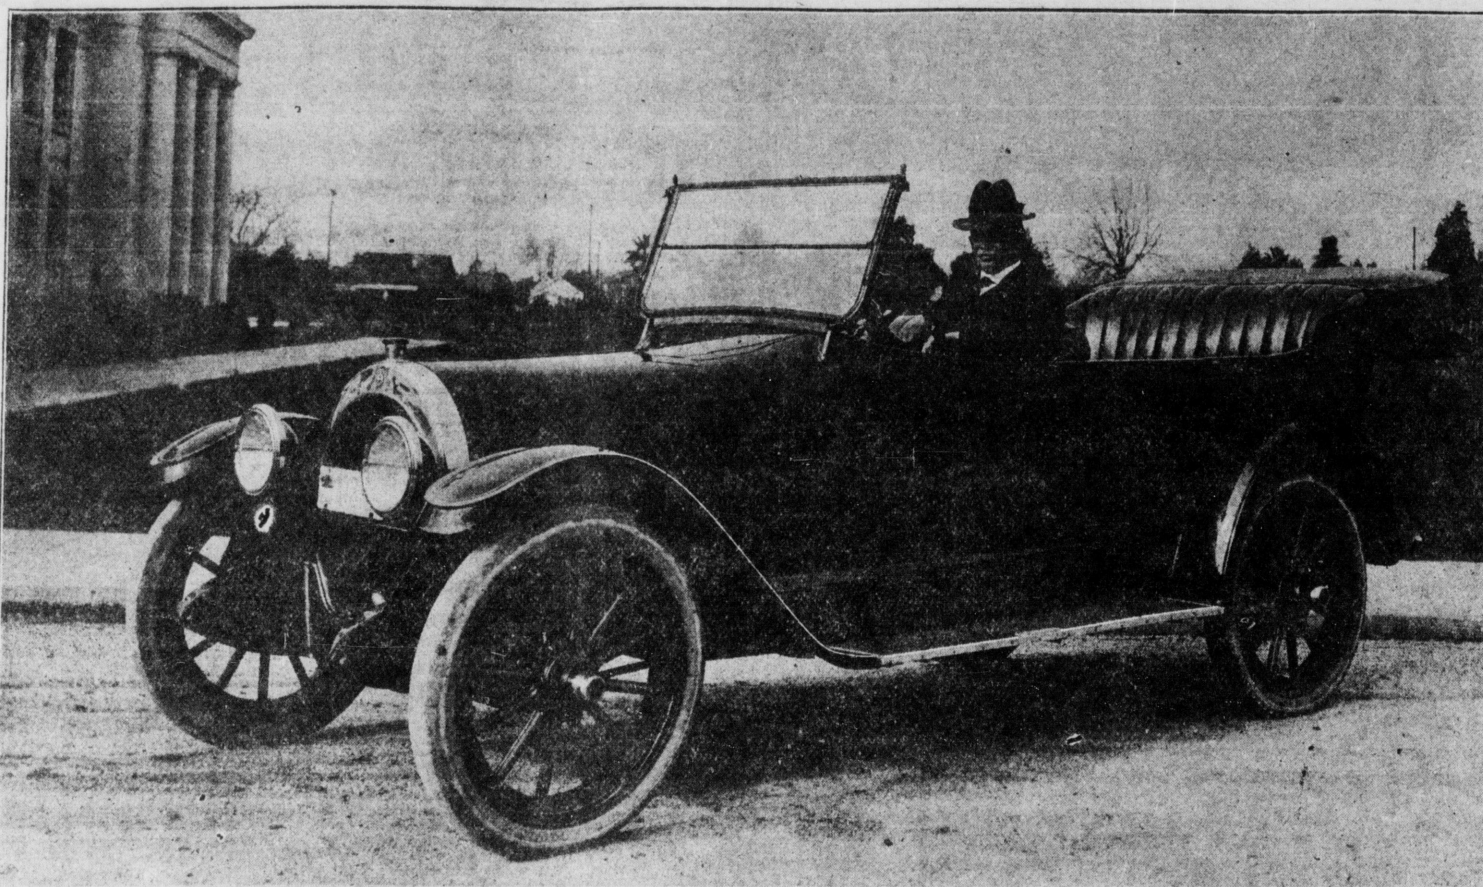

For weeks, past, teachers, under the supervision of Mrs. Minnie Mills, supervisor of music in the schools, have been giving attention to the programs which will be presented today. In addition to the invitation given the noted plant wizard and his wife, invitations have been given to the parents and friends of the children.

Interest centers around the Burbank school, named in honor of Mr. Burbank.

C. C. Crawford and the New Oldsmobile "8" He Represents

GRANT BUILDING ONE OF VERY BEST

The new home of the Grant car and the Ideal Tire & Rubber Co. is probably the most pretentious auto building on Fifth street.

The exclusively designed motor of the Grant car is a marvel of construction. Owners average 20 miles to the gallon of gasoline (some say 28 miles) and 900 to 1200 miles to the gallon of oil.

Many buyers who look at the Grant motor look no further because they know such a motor must bespeak equally good chassis construction.

But there is more than an uncommonly good motor in the Grant Six. The local Grant agent is like the man who builds a good house from basement to attic. He wants you to see the cellar and note how thoroughly everything has been done, and he is equally anxious to have you observe the quality of the car he sells.

A NEW TIRE

Billy Pennock, who is associated with E. M. Matthews in the Ideal Tire and Rubber end of the business, is particularly pleased since he landed the agency for the Hood and Puritan Tires. Billy likes to give an absolute guarantee on everything he sells. The Hood affords him that opportunity. It is said of the Hood that it is in many respects the finest tire on the market. Billy says it is; and Billy ought to know. There are few who can tell you as much about the tires as Billy.

Oldsmobile
"8"

The Wonder Car Will Be In Its New Home Apr. 1st

In our new garage on East Fifth Street (now in process of construction) the "Olds" "8" will have a home in keeping with its dignity and requirements. The home is being built to Oldsmobile "order" and will embody all the improvements and conveniences a fine automobile salesroom and garage should embody.

Upon completion we invite you to come and see it.

In the meantime, call at our present location, 424 West Fourth, and see the wonder car of America. We realize that "wonder" is a common adjective; but it is an effective one. That is why we use it—because it describes the new Oldsmobile "8" to a "Queen's taste."

It would be a pleasure to prove to you that the "Olds" is truly a wonder car.

The 50-horse power motor, with the light weight of the Oldsmobile—2700 pounds—ready for the road—provides a reserve of power that makes gear shifting rarely necessary. The smoothness of the eight cylinders is a motoring delight.

The 120 inch wheel base, through clever body design, provides the utmost in comfortable leg room. Long, wide springs and perfect balance of chassis insure easy riding under any kind of going.

The car is built in four body styles at

prices astonishingly low—\$1495 for the 7-passenger, and \$1425 for the 5-passenger car, club roadster and convertible roadster models f. o. b. Santa Ana. The 7-passenger is now on display at our show-room. Call or phone today for a demonstration.
